FACT SHEET

Unison's Autolite® XL Fine Wire Aviation Spark Plugs

THE PRODUCT

Features

- Proprietary glass seal and integral resistor provides stable resistance value throughout the life of the plug
- Pedestal mount for the welded side wire electrode
- Projected gap design that provides less shielded spark for improved combustion
- Iridium material in both the side wire electrode and the center electrode tip
- High temperature black paint which is applied over the nickel coating for additional corrosion protection

Benefits

- FAA-PMA approved for most GA piston engines
- Much longer life at an affordable price in comparison to any massive electrode plug
- Electrodes extremely resistant to lead attack
- Improved scavenging
- Projected gap performance

AVAILABLE PART NUMBERS

- URHB36S - UREB36S
- URHB32S - UREM38S
- URHM38S

PRICE

Unison's Autolite® XL Fine Wire Aviation Spark Plugs will have a list price of thirty percent below the competitor's fine wire product. For the 2005 list price refer to Unison's Slick Price Catalog, document L-1092.

PRODUCTION

Shipment of the Autolite® XL Fine Wire Aviation Spark Plugs is expected to begin within the first quarter of 2005. All of Unison's Autolite® Aviation Spark Plugs are manufactured at its Rockford, Illinois facility.

COMPLETE IGNITION SYSTEM

Unison currently manufactures the Autolite® Aviation Spark Plugs with massive electrode. The addition of the Autolite® XL Aviation Spark Plugs to the Autolite® Aviation Spark Plugs product line enhances Unison's ability to offer customers one of the broadest, GA ignition systems on the market today.

INSTALLATION AND MAINTENANCE RESOURCES

For installation and maintenance information on Unison's Autolite® Aviation Spark Plugs, refer to Unison's Autolite® Aviation Spark Plugs Installation and Maintenance Manual, Unison document L-1710.

For more information, an electronic copy of Unison's massive electrode or fine wire Autolite® Aviation Spark Plugs or Unison's Autolite® XL Aviation Spark Plugs logo, contact Angela Milligan at (904) 739-4145 or angela.milligan@unison.ae.ge.com.
