

## Electronics International Rebate

### **MVP-50P or MVP-50T = \$350 Rebate**

The MVP-50P (T) has over 50 features and functions. All critical aircraft functions are monitored, in addition to custom parameters, checklists, information screens, and much, much more! This is the de facto engine monitor of the industry, leading the pack in technology and features.

**NOW STC'd for hundreds of GA Aircraft!**

### **UBG-16 = \$300 Rebate**

The UBG-16 offers pilots several features not available with the competition, including programmable upper and lower limits for each individual cylinder, which is critical for determining if every cylinder is properly functioning.

### **FP-5(L) = \$150 Rebate**

The FP-5L offers pilots several features and options not available with the competition, including an Auxiliary Channel, which allows pilots to monitor another parameter, complete with upper and lower limits.

### **Rebate Details**

Choose from the rebates listed above. In order to be valid, all rebates must be redeemed within 30 days of the date of purchase from an authorized EI dealer, **no exceptions**. Purchase must be made **Prior to 12/31/2009** in order to be valid. When submitting your request for a rebate, you must include this completed rebate form, a completed "60-Day Extension of Your Limited 1-Year Warranty" form (included with instrument at time of shipment) and the purchase invoice for the product for which you are requesting a rebate. The invoice must include your name, the dealer's name, the model of the EI item purchased, and the date of purchase.

Rebate applied for (Circle One):    **UBG-16**    **FP-5 (L)**    **MVP-50**
