

Autolite® XL

Fine Wire Aviation Spark Plugs
by UNISON

Unison's new Autolite® XL Fine Wire Aviation Spark Plugs have **LONGER LIFE** and more **PREMIUM DESIGN FEATURES**, at a more **AFFORDABLE PRICE** than any spark plug on the market today.

Unison's FAA-PMA approved, Autolite® XL spark plugs are available in the following part numbers:

URHB36S URHB32S
URHM38S UREB36S
UREM38S

- Resistant to lead attack
- Improved scavenging
- Pedestal mount for the welded side wire electrode
 - Projected gap design for improved combustion
- Iridium side wire electrode and center electrode tip
 - Proprietary glass seal and integral resistor
- High temperature black paint for additional corrosion protection

For more information on approved engine models, call our Piston Help Line at (904) 739-4081 or email pistonhelp@unison.ae.ge.com and ask for our new Autolite® application brochure. In addition, installation and maintenance information on Unison's massive and fine wire plugs may be found in Unison's L-1710, Autolite® Aviation Spark Plugs Installation and Maintenance Manual. This manual is available with purchase of Unison's F-1100 Slick Master Service Manual.
