Sharpen Your Focus
with an Insight Sunvisor System

Application Guide (1.0)

Enhanced Visibility within Your Reach

In 1985, Rosen Sunvisor Systems manufactured the first multi-positioning see through visor for the aviation industry. Today, Rosen Sunvisor Systems are installed as original factory equipment for many aircraft including Cessna, Bombardier and Boeing.

Rosen Sunvisor Systems improves safety and pilot comfort by filtering harmful ultraviolet radiation and

glare without compromising the visibility of surrounding traffic.

Rosen now offer their innovative Sunvisor System to the automotive industry. Under the Insight Sunvisor Systems brand, drivers of popular domestic and import trucks, SUVs and passenger vehicles can now experience the same level of safety and comfort that pilots around the world have enjoyed.

- ▶ **Increases Visibility through Glare Reduction**
- ▶ **Improves Driving Safety and Comfort**
- ▶ **Reduces 99.9% of Harmful UV Light**
- ▶ **Reduces Radiant Heat**
- ▶ **Features Multi-Directional Adjustability**
- ▶ **Aerodynamic Design Accentuates Vehicle Interior**
- ▶ **Available in Black or Satin Finish**
- ▶ **3 Year Limited Warranty**
