3M POLYURETHANE LEADING EDGE TAPE

Designed to help protect light aircraft from the damaging effects of rain, insects, sand, snow and sleet. A tough durable, protective tape for exposed surfaces. 3M #8672 Polyurethane Protective Tape is designed to help protect the leading edges of aircraft wings, struts, and horizontal and vertical stabilizers from airborne particle damage. Versions of this tape are used extensively for surface protection in both military and commercial aircraft applications.

May be applied to clean metal or to commonly used aircraft paints over metal or fabric. Not to be used on props, helicopter rotors or balanced surfaces such as elevators or ailerons. Clear in color.

Sold in full rolls only.

AEROSHIELD 2604 LEADING EDGE TAPE

Known as Rotunda 2604, this tape is available in both clear and black, and is manufactured from tough, tear and abrasion resistant, thermoplastic polyurethane film, protected by an easy release silicone liner. The principal use of the tape in the aircraft industry is to protect the leading edges of wings, tail fins and propellers of both civil and military aircraft from erosion and pitting during hail and rain storms. Protection of propellers is obviously vital, not only in the air but at ground level, mainly from loose particles and gravel. Aershield 2604 tape offers a substantial improvement in the operational life of aircraft wings, tail fins and propellers. It can be replaced easily and at low cost. **Note: Polyurethane will yellow under UV exposure. Thickness: 0.350 mm. Furnished in 36 yd. rolls.**

MD FOAM TAPE

An excellent canopy seal which helps stop vibration. Recommended for use on Quickie. Size: 3/8" thick x 1/2" wide x 10 ft. P/N 05-01100**\$2.40**

DUCT TAPE

A general-purpose gray cloth tape with good adhesive qualities. 2" x 60 Yd. Roll.....P/N 09-30900**\$6.50**

MASKING TAPE

Armak general or 3M purpose crepe masking tape. Long shelf life.
 1/4" x 60 yd. RollP/N 09-20101**\$3.85 ea.**
 3/4" x 60 Yd. RollP/N 09-20100**\$1.35 ea.**

CLOTH TAPE

Has many uses in aircraft maintenance work. Strip over sharp corners to protect fabric. Strips under doped fabric will prevent fabric from sticking to parts. Pressure-sensitive adhesive backing. Easily applied, easily removed. 1" x 60 Yd. Roll.....P/N 09-17100**\$7.30**

GLASS STRAPPING TAPE

A pressure-sensitive transparent acetate film tape reinforced with glass strands. Possesses high tensile strength (375 lbs./inch width) and good impact strength. Especially effective for carton sealing applications. #RG-2A, 3/4" x 60 Yd. Roll/P/N 09-31200**\$0.91**

POLYPROPYLENE TAPE

A pressure-sensitive transparent polypropylene plastic tape for packaging & edging. Outstanding stretchiness/conformability. Waterproof, flame, abrasion and solvent resistant. #371, 2" x 110 Yd. Roll.....P/N 09-31300**\$1.75**

VELCRO FASTENING TAPES

Consists of a set of 2 mating 1" wide black Nylon tapes, which, when pressed together, lock tightly and hold until peeled apart. Tapes have pressure-sensitive adhesive backs. Ideal for use in cockpit to mount pilot supplies, as an upholstery and rug attachment. An effective fastening material - applications unlimited. P/N 09-31400**\$2.52 Yd.**

CLEAR SLIP RESISTANT WING WALK

This newly patented slip-resistant material is an excellent alternative to black Wing Walk which has been used on aircraft for many years. This material is clear and has an adhesive backing that requires heat or 1500 lbs. of pull to remove it from the surface on which it is applied. Imagine how much better a newly painted aircraft can look with a clear material which does not alter the paint design. The material is impervious to chemicals, compounds, and water and will expand and contract with the metal or fabric. Surface roughness of the material is about the same as standard black Wing Walk. Furnished in 16" x 30" sheets.

P/N 09-31810.....**\$32.85 Ea.**

NON-SKID WING WALK TAPE

Our non-skid adhesive tape is excellent for wing walk applications. The white and clear is perfect for pilots wishing their step areas to blend in, not stand out. This tape meets all applicable Mil Specs and has superior adhesion qualities. Sold by lineal foot. **DISCOUNT: LESS 15% ON 50 FT (Per P/N)**

RANDOLPH WING WALK COMPOUND

Black Wing Walk Compound is a special grit mixed into a tough black enamel material. Used to form non-slip surfaces on airplane wing walks. Apply with a coarse brush directly over regular finish after thoroughly cleaning the surface, and breaking the glaze if the surface is old. Thin with toluene as required. Conforms to MIL-W-5044. Randolph X-1567.

3M SAFETY WALK SHEET

A durable, mineral coated, non-slip fabric for wing walks. Waterproof, weatherproof and unaffected by vibrations, heat, cold, gasoline or oil. Assures safe footing. Pressure-sensitive backing should have additional coating of Pliobond to assure adhesion for aircraft applications. Sold by lineal foot.

SAFETY WALK EDGE SEALING COMPOUND

3M Safety Walk Edge Sealing Compound is recommended for sealing around the edges of safety walk installations exposed to outdoor weathering or to excessive amounts of grease, oil or water.

5 oz. TubeP/N 09-32300 **\$9.90**

MAC WING WALK

MAC wing walks are not made from the usual, sandpaper-like material, which can decompose and scratch both the wing surface and your knees. Instead, they use a low profile, synthetic rubber, that combines a comfortable feel with good gripping power. The MAC wing walk comes pre-cut to 26 1/2" x 9 1/2". Installation is easy with the aggressive, self-adhering backing. Each wing walk comes rolled in its own, 4"x4"x10" box and installation instructions are also provided with each box. BlackP/N 09-28210**\$16.70 ea.**

PLIOBOND

Pliobond #20 is a viscous, quick setting highly versatile adhesive. Bonds metal; wood, plastics, fabrics; ceramics, glass, vulcanized rubber, paper, leather and concrete. Thin with MEK.
