### QUICK RELEASE PINS

These pins, of stainless steel, are made to exacting standards. Push button on top contracts and releases two (or four) balls at end of shank. These balls lock onto and release from part for fast removal. The following types and sizes are most commonly used for hang gliders. Not for structural use on aircraft. Request quote on special sizes (25 piece minimum).

Part No.	Alternate Part No.	MS Part No.	Head Type	Shank Dia.	Leng.	Price

Less 10% for 12, Less 15% for 25, Less 20% for 50.  
 May be assorted.

### CAMLOC ACCESS DOORS FOR WHEEL PANTS

These 1" diameter spring loaded access doors can be riveted into your wheel pants. They open inward, so that using an appropriate tool, you can check pressure or inflate your tires easily without removing the wheel pants. Made of stainless steel which can be polished if desired.
