PRIST® HI-FLASH® HI-FLO™ ANTI-ICING FUEL ADDITIVE

PRIST® Hi-Flash® Hi-Flo™ Anti-Icing Fuel Additive: The Original Just Got Better! PRIST® Hi-Flash® Hi-Flo™ aerosol cans are now available with a redesigned trigger dispensing system that makes them easier and safer to use. The safety trigger gives the user control of additive flow with instant on and off dispensing. Now the trigger dispensing system comes pre-mounted on the can which eliminates leaks at the valve connection. This means less waste, no drips and no spills. PRIST® anti-icing fuel additive comes in a wide range of packaging, making it easy to choose the amount of product and dispensing method for your application. The sizes include: 55-gallon drums, 5-gallon pails, 20-ounce and 8-ounce aerosol cans.

DECALIN RUNUP FUEL ADDITIVE

Decalin RunUp is approved for use with the new 100VLL (Very Low Lead) fuel announced by the FAA on Special Airworthiness Bulletin NE-11-55. Decalin RunUp contains two types of additive, one to reduce the negative effects of tetryaethyl lead in aviation fuel and the other to improve the combustion efficiency, reduce combustion deposits and clean the fuel delivery system in aircraft. Decalin RunUp is not approved for use in the engines of certified aircraft.

3M™ AC-251 B-2 3.5 OZ – CANOPY / WINDSHIELD SEALANT

A two-part, quick curing, polysulfide based canopy and windshield sealant. Formulated for sealing acrylic, glass, and polycarbonate aircraft canopies and windshields. Contains no solvent and do not craze. The sealants quickly cure and exhibit excellent adhesion which typically is to be used on Special Airworthiness Bulletin NE-11-55. 3.5oz Fill Premixed Syringe. A thixotropic, non-sag consistency.

3M™ AEROSPACE SEALANT AC-350 B-2 3.5 OZ

A fast cure, intermediate density polysulfide sealant, suitable for fuel tank and fuselage applications. Maintain flexibility and bond strength on most metal substrates such as: aluminum, titanium, steel, stainless steel, glass, and many coatings under extremes of temperature, weathering and stress.

FUEL FRESH

Aircraft sit - Fuel Fresh prevents gasoline from going stale. This process called Autoxidation occurs when oxygen reacts with fuel, thereby forming gum and varnish. Auto gas is particularly susceptible, losing octane performance and flammability, resulting in greater possibility for detonation. Add Fuel Fresh and preserve fuel up to 24 months, maintain octane, reduce gum varnish, clean fuel system, and inhibit corrosion. Quick starts and clean burn are assured. Safe for 2 or 4 cycle engines. Handy measuring bottle. 32 fl.oz. Concentrate (Treats 96 Gal).

HAMILON TURBOLINE FUEL STABILIZER

Turboline FS100 is a high-temperature fuel stabilizer and detergent additive designed to minimize carbon or coke deposits in turbine fuel combustion systems. Turbine FS100 is readily soluble in jet fuel. Batch blending into the fuel is acceptable, but the best procedure is proportionnal injection. Turbine FS100 is completely compatible with other fuel system additives such as FSll and Biobor JF™.

HAMILON BIOBOR JF™ FUEL BIOCIDE

For diesel and jet fuel. Recommended in many operating manuals as the preferred, industry standard fuel additive for eliminating Hydrocarbon Utilizing Micro-Organisms (HUM Bugs) in fuel tanks. US Coast Guard Certified and is the only diesel additive that has been granted a military MIL Spec number.

HAMILON BIOBOR HUM-BUG DETECTOR KIT

The Hum-Bug Detector® Kit is a low-cost, easy-to-use early warning system that will effectively identify hydrocarbon utilizing micro-organism contamination in all hydrocarbon fuels and oils. P/N 05-04965.

PRO-SEAL TYPE TANK SEALANTS

Pro-Seal and similar products are two-part polysulfide integral fuel tank and fuselage sealants. We offer a Pro-Seal equivalent which is a B-2 type material and meets specification MIL-S-8802E. Type II, Class B-2. These kits are packaged in poly bags with nozzle, plunger and instructions.

PRO-SEAL HAND-DISPENSING GUN

These hand-operated dispensing guns are ideal for applying Pro-Seal type sealants in small quantities normally used by the home builder. Available in two sizes for the two sizes of Pro-Seal offered above.

PRO-SEAL AIR POWERED TS950 2.5 OUNCE GUN KIT

The Pro-Seal Air Powered Sealant Kit includes Techcon TS950 Sealant Gun with Piston Grip Handle 2.5 oz. Versatile, pneumatic 2.5 ounce sealant applicator system with piston grip handle. Techcon Extended Wiper Plunger (1 piece per kit) Techcon 2.5 oz. Standard Density Dispenser Cartridge (1 piece per kit). Nozzles offered are Air Powered 2.5 Ounce Gun Kit. P/N 09-38540
