SA-201T SMOKE OIL PUMP

This 5.5 Gallon smoke system kit is for continuous inverted flight with oil pump mounted on the top of the oil tank. This particular kit has been installed in the baggage area of a CJ6A, T34A and RV7 to date. Use this kit when height is not an issue.

Dimensions: Height (to top of oil pump) 16-1/4", Width (left to right) 13", Depth (end with label) 10".

P/N 05-03398 .............................................................. $1,087.90
P/N 05-04479 .............................................................. $1,087.90
P/N 05-07814 .............................................................. $1,290.95

NOTE: Add 1.5" at base of tank on sides and ends for bracket width.

INJECTOR ONLY KIT

The kit includes: • 1 Injector • 2 Injector Mounting Clamps • 1 AN-4 90 degree fitting • 1 AN-6 Straight Fitting • 1 Piece of Safety Wire • 1 Installation Instructions.

Customer must provide: Engine Make, Engine Model and/or Exhaust Diameter at Injector Location (Injector should be installed just after the Y in the header pipes on typical Lycoming O-360 / O-540 or similar and 15" or more before the end of the tail pipe on radial engines).

COPPER STATE AVIATION SMOKE OIL

Copper State Petroleum’s Aviation Smoke Oil is a low viscosity, amber colored petroleum base oil for many aviation smoke applications. It is non-toxic and specially formulated to produce a brilliant white smoke trail with incredible hang time.

Features: • Made from highly refined base stocks and contains no additives that can harm smoke systems. • Its low viscosity and ability to produce billowing white smoke clouds that are reluctant to dissipate make it the perfect choice for professionals looking to impress a crowd. • Its non-flammable formulation makes it an extremely safe and superior alternative to dangerously ignitable homemade oil and fuel mixtures.
