MC-6 NOSE CHEEKS
From the latest design of John Thorp, this is a 2 piece cowl used on the T-18. Can be adapted to most homebuilt where the builder wishes to use cheeks. They have been installed on the Midget Mustang as well as the Miniplane. Makes a fine nose section.
P/N 05-01213 ........................................ $69.75

MT-1 WING TIPS
Manufactured from the original T-18 plans and come ready to slip over the ends of the wing. Nav. lights are normally installed by notching the leading edge corner of these fairings and installing Plexiglass.
P/N 05-01214 ........................................ $198.50

MC-5 BELLY PAN
Designed to work in conjunction with the MC4 Nose Cowl. This is the most popular combination being used today and it gives your T-18 all the compound curves and beauty it deserves.
P/N 05-00025 ........................................ $106.75

CARBURETOR INTAKE SCOOP
Carburetor intake scoop with 4-1/4" x 8" rectangular opening.
P/N 05-22500 ........................................... $49.85

HEAD REST
Originally designed for the Smith Miniplane but can be used on other bipes.
P/N 05-22100 ........................................... $31.75

BABY GREAT LAKES COWL
Fiberglass Cowl set fits Baby Great Lakes, Super Baby Great Lakes, and Buddy Great Lakes. Top and Bottom Cowl halves sold separately.
Dimensions: 33"x29"x9-1/2" (P/N 05-02883) 33"x33"x19" (P/N 05-02884)
Top Nose Cowl
P/N 05-02883 ........................................... $349.00
Bottom Nose Cowl
P/N 05-02884 ........................................... $398.00

BUDDY BABY GREAT LAKES SEAT
This fiberglass seat was designed to fit the Baby Great Lakes aircraft and is recommended by the designer. Dimension: 26"x30"x19"

GEL-COADED FIBERGLASS WHEEL PANTS
Keep gravel, mud, dew and grass out of your prop, off your wings and off your face with these easy-to-repair fiberglass reinforced polyester wheel pants. Supplied in gel-coated finish, they have a small seam along the top edge, easily removed by sanding, if desired. Sorry, no mounting hardware is included. Easy to cut and customize. White, red, black.

BUCKET SEATS
For Starduster or Skybolt. Flat Gray finish, 18" wide. Can be upholstered or used plain. Contoured bottom for parachute. These are not chopped glass seats. Hand layed up for extreme lightness. Wt. 3 lbs. 10 oz.
Note: This oversized item ships in a 21 x 21 x 21 box with a dimensional weight of 48 lbs.
(P6 lbs internationally)
P/N 05-22600 ........................................... $73.25

TURTLE DECK
Fits the Acrobat or Skybolt. With flat mounting pad to accommodate a VHF antenna. Approx. Height 19" at front, 13" at back. Overall length, approximately 57"
P/N 05-22200 ........................................... $124.95

HOERNER DESIGN WING TIPS
These wing tips are constructed of hand laid-up fiberglass which is extremely strong, has great impact strength, and is resistant to chemicals. The Hoerner design of these wing tips reduce the vortex that emanates from the trailing edge of the wing tip thereby reducing drag on the aircraft, leaving more energy available for lift and speed. Stall speed is decreased and lateral stability is improved. You will see increased cruise speed, more positive aileron control, increased rate of climb, decreased take-off distance, and improved appearance with these tips. All STC and approval data is furnished.

Cherokee Straight Wing Tips
PA-28 140 thru 200R models.
P/N 05-90000 ........................................... $783.00 pr.
