### JANITROL HEATERS BY HARTZELL

Our Janitrol heaters, rebuilt right at the factory by Janitrol Heater Products, a division of Hartzell, feature new CermaKote combustion tubes and a more efficient, lightweight permanent magnet blower motor. These heaters are rebuilt to factory new tolerances and upgraded to the latest model configuration with a new serial number. These heaters are not affected by FAA AD Note 96-20-07. Three year, 1000 hour limited warranty, 1500 hour TBO. CALL FOR PRICING!

### JANITROL HEATER CERMAKOTE COMBUSTION TUBES BY HARTZELL

Janitrol Heater Products, division of Hartzell produces extended life "CermaKote" combustion tubes for individual sale. The "CermaKote" combustion tubes incorporate a special process to coat the areas susceptible to flame erosion. The FAA/TSO approved OEM combustion tube is engineered to provide years of safe operation through improved materials designed to better withstand the high temperatures and corrosive environment inside your heater. This product improvement will greatly decrease your routine heater maintenance cost and give you the added assurance that your heater is being maintained with the highest quality parts on the market today!

### ENGINE SAVER

Every aircraft owner knows that his engine is subject to moisture build up and internal rust formation when not flown regularly. Oil companies spend millions developing special additives to minimize rust. Now there is a better way to fight this rust! The Engine Saver produces a continuous supply of very low humidity air that is introduced into the engine through the breather. Low humidity air prevents water formation in the engine. The slight pressure built up keeps the moist outside air from entering, allowing the dry air to flow past the piston rings into the upper cylinder area protecting it as well. The Engine Saver is 110Vac powered, requires no installation or FAA approval, and works with all piston engines. Pilots are flying less and the Engine Saver will save them money by reducing maintenance costs.

P/N 08-00724.............................. $347.00

### AIM-A-SQUIRT

Aim-A-Squirt was developed out of the need to apply lubricants, corrosion inhibitors and solvents in those hard to reach areas with out getting the products all over everything. Aim-A-Squirt has been tested with hundreds of different products which have had no affect on the special plastics the straw is made of. The straw is flexible enough that it will not kink when it is twisted in a small circle.

### ANDEROL ROYCO 782 HYDRAULIC FLUID

ROYCO 782 is a red – colored synthetic hydraulic fluid developed to meet the severe duty demands of today’s military and industrial equipment. Modern additive technology is employed for oxidative stability, corrosion inhibition, and anti-wear protection. ROYCO 782 is compatible with petroleum based fluids and all components used in mineral oil type hydraulic systems. Mil-Spec MIL-PRF-83282.

Specifications:
- 5.3oz (150g) Tube.
- Base Chemistry: Silicone
- Inert, good shear stability and wide service temperature range.
- Resistant to oxidation, moisture and corrosive atmospheres,

Dow Corning 33 Extreme Low Temperature Grease is employed for oxidative stabil

P/N 08-07085.............................. $270.00

### MOLYKOTE 33 BEARING GREASE

Dow Corning 33 Extreme Low Temperature Bearing Grease is a thickened silicone oil; resistant to oxidation, moisture and corrosive atmospheres, inert, good shear stability and wide service temperature range.

Specifications:
- 5.3oz (150g) Tube.
- Base Chemistry: Silicone
- Flash Point: >101.1°C
- Service Temperature: -73 to 204°C
- Specific Gravity: 1.1 @ 25°C
- Viscosity Cp: 100 @ 25°C

P/N 06-02342............................... $28.50

### BENDIX MAGNETO GREASE

#10-27165 - Factory recommended lubricant for bearings in Bendix magnetos.

1 Lb. Can................. P/N 10-27165............................... $63.85
#10-391200 - For use on distributor block bushing. Provides proper shaft lubrication.

8 oz. can................. P/N 10-391200............................... $61.75
1 oz. tube................. P/N 07-02500............................... $3.95

#10-86687 - High temperature breaker/cam lubricant

P/N 10-86527............................... $44.50

### TEMPEST AA1000 ENGINE PRESERVATION SYSTEM

Protect Your Engine With the Tempest EPS.

All engines accumulate moisture when they are not run everyday. Moisture will oxidize and create rust in the engine causing potential damage as well as faulty oil analysis.

AA1000 EPS pumps dry air into the engine oil filler cap and removes the moisture already in the engine. Continuous operation will prevent any additional moisture from accumulating. Removal of the moisture preserves and protects your engine.

110V................... P/N 08-07192............................... $188.75
220V................... P/N 08-07383............................... $241.95

### ACCESSORIES

Replacement Desiccant for AA1000 EPS (1 lb)

P/N 07-03400................... $18.90

Replacement Desiccant for AA1000 EPS (1/4 lb)

P/N 07-00731................... $4.73
