**EXHAUST INSULATING PRODUCTS**

**HIGH VELOCITY EXHAUST JACKET**
An innovative way to insulate and block radiant heat. Can cover the tubes vertically for a consistent fit. The jacket allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. Uses Thermal Conduction Technology (TCT), developed by Thermo-Tec. and can be applied with header coat. P/N 80-00097............$72.75
4-6 cyl. kit............P/N 80-00098............$94.80
8 cyl. kit............P/N 80-00099............$94.80

**SPARK PLUG WIRE HEAT SHIELD**
The ultimate protection for spark plug wires and boots from conductive and radiant heat. The dual-purpose sleeve has a surface that reflects over 90% of radiant heat, while the silica-based fabric prevents conductive heat from penetrating. P/N 80-00612.............$17.50

**TURBO KIT**
Designed to protect, improve performance, and eliminate turbo lag of a turbo charger. Fits a wide variety of engines and makes. The custom cut-to-fit kit comes with an excess amount of material to cover turbos from the smallest automotive application to heavy-duty truck applications. 4 cyl. kit............P/N 80-00613............$98.75
6-8 cyl. kit............P/N 80-00614............$118.95

**MUFFLER/CAT HEAT SHIELD KIT**
The 40" x 24" mylar Heat Shield is made up of woven silica with a flexible mylar finish. Can be installed between the exhaust pipe and the catalytic converter, muffler, or other component to reflect radiant heat away from the undercarriage of the car. The kit includes all necessary fasteners. P/N 80-00616...............$64.85

**HEAT TERMINATOR ULTRA-LITE**
Made of the highest-quality insulating materials available today. The material is made of a highly-textured aluminum composite surface on one side, with a high-temperature silica felt center and a mylar sound facing. Uses Thermal Conduction Technology (TCT), developed by Thermo-Tec. 8" x 12".............P/N 80-00617............$67.95
10" x 18".............P/N 80-00618............$96.80
18" x 18".............P/N 80-00619............$117.75
24" x 36".............P/N 80-00620............$124.75
24" x 24".............P/N 80-00621............$132.85
24" x 36".............P/N 80-00622............$140.80

**STARTER HEAT SHIELD**
Starters take a lot of damaging heat that destroys the windings of the starter & solenoid. The Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield is a universal kit that fits all starters. P/N 80-00611...............$27.75

**THERMO SHIELD**
Thermo-Shield protects hoses & wires from radiant heat. Used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive-backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. 15" x 1.5" roll. P/N 80-00602.............$17.85

**THERMO-FLEX**
Thermo-Flex Aluminum is a composite heat shield material with unlimited uses. The material is manufactured with a combination of materials to provide abrasion-resistance, thermal insulation, and physical containment of hoses and wiring. The combination of aluminum, silica, and stainless steel is combined to produce a sleeving that is flexible, lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering without disconnecting the ends of the wire or hoses. Thermo-Flex Aluminum can withstand extreme temperatures of up to 750°F. Packaged in 10 ft. lengths.
5/8".............P/N 80-00623.............$46.50
1.25".............P/N 80-00624.............$64.75
1.75".............P/N 80-00625.............$75.75
2".............P/N 80-00626.............$88.50

**FIREPROOF SHIFTER BOOT**
The Fireproof Shifter Boot is made up of woven silica with a flexible mylar finish. The shifter boot was developed as a fire barrier for high speed engine fires, which can burn away rubber boots in seconds. P/N 80-00615.............$30.50

**COOL-IT PLUG & IGNITION WIRE SLEEVES**
This unique spark plug & ignition wire protector comes in five sporty colors; red, orange, blue, black & natural. These dual-purpose sleeves enhance performance, reduce plug wear and will not melt or char with petroleum products. The double-wall construction keeps the wire and boot cooler in a high-temperature engine. Its universal size fits most boots, is easy to install & non-flammable.
4-Pack.............P/N 80-001027.............$27.90
6-Pack.............P/N 80-001030.............$41.60

**COOL-IT MAT**
Use the Cool-It Mat to battle excessive heat and noise that penetrate the driver compartment, through the firewall and floorboards. It is also perfect in doors, under hoods, and above transmission housings. Cool-It Mat is composed of resin-bonded silica blanket insulation sandwiched between a mylar facing on one side and a foil facing on the other. The highly-reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanket is a dual-density composite and is the main sound insulator. It is easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. P/N 80-00610...............$35.90

**THERMO-SLEEVE**
Lamination of a high-temperature fabric to a highly-reflective foil is the makeup of Thermo-Sleeve, which provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra-light weight construction provides more insulation than traditional bulky rubber-coated fiberglass. The aluminized sleeving reflects over 90% of radiant heat, and is fireproof & oil resistant. Comes packaged in 12 ft. lengths, and sold in 5 different inside diameter sizes.
12" 1/2" ID.............P/N 80-00605.............$51.50
12" 1" ID.............P/N 80-00606.............$70.75
12" 1 1/2" ID.............P/N 80-00607.............$87.95
12" 2" ID.............P/N 80-00608.............$104.95
12" 2 1/2" ID.............P/N 80-00609.............$123.75

**HEAT BARRIER - ADHESIVE BACKED**
Aluminized Heat Barrier is made up of woven silica with a flexible aluminized finish. The highly-reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000°F. The adhesive backed composite construction material can easily be applied to any part of exhaust system. This product is designed to block radiant heat only!

**HEADER MANIFOLD BLANKET**
The Header Manifold Blanket provides excellent heat-restraint for exhaust headers and manifolds. This flexible heat shield simply clips around the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away, offering protection from abrasion and harmful liquid spills. Available in two sizes:
(2) 20" by 24" blanks for V6 & V8 applications, and (1) 36" x 40" blanket for straight 6 & 8 cylinder engines.
20"x24".............P/N 80-00603.............$95.75
36"x40".............P/N 80-00604.............$84.75

**GRAPHITE BLACK WRAP**
Graphite Black Wrap offers the same unrivaled performance and insulating properties as our original exhaust wrap and more. Traditionally, high-heat spraying had to be applied to the exhaust wrap to color it black. Now new Graphite Black Wrap eliminates the process of coating the wrap with its patented Thermal Conduction Technology (TCT) high-heat color pig ment. Graphite Black Wrap is available in 2" widths, in 50 ft. rolls. P/N 80-00596.............$49.75

**GENERATION II COPPER HEADER WRAP**
Generation II Copper Header Wrap improves heat resistance up to 30% more than current technology, by utilizing a new proprietary coating developed by Thermo-Tec; improved Thermal-Conduction-Technology (TCT-T). Creates more horsepower & reductive & redox reactions, increases exhaust scavenging, withstands continuous heat up to 2000°F, contains no asbestos. Sold in 1" or 2" wide, 50 ft rolls with low profile 1/16" thickness. 1"x30".............P/N 80-11031.............$29.75
2"x30".............P/N 80-11032.............$49.65

**MICRO LOUVER AIR SHIELD**
Lightweight yet durable, the aluminum Micro Louver Air Shield features micro air louvers, which allow air to flow through the metal shield. The movement of the vehicle creates dynamic air flow, cooling by natural convection. The textured surface creates micro air louvers creating an area for heat dissipation. The Micro Louver Air Shield is flexible yet durable; it bends and flexes easily by hand, making a custom fit trouble-free.
12"x24".............P/N 80-11710.............$33.50
24"x24".............P/N 80-11720.............$51.00
48"x24".............P/N 80-11740.............$88.50
