ICOM IC-R6 HANDHELD RECEIVER
100 kHz – 1309.995 MHz wideband coverage. Radio provides superior sensitivity and receiver characteristics that is insensitive to interference. Amateur stations, AM, FM, short wave broadcasts, TV audio* and a variety of utility communications can be caught and listened to. Frequency range depends on version. Analog TV audio only. Cannot decode digital TV audio. With the supplied rechargeable Ni-MH cells (1400mAh × 2), the IC-R6 provides up to 15 hours of continuous receive capability. At 50 mW output using external speakers, 1300 memory channels with 22 memory banks. The VSC opens the squelch only when a modulated signal is detected and ignores un modulated beat noise. The IC-R6 can be powered by rechargeable Ni-MH cells, or with alkaline batteries. Run the IC-R6 using the IC-adapter, BC-196C, or CP-18. When used the optional drop-in charger station BC-194 with the AC adapter or cigarette lighter cable, you can easily start charging the Ni-MH cells, while eliminating the need to connect the power source.

United States Version

YAESU FTA-230 TRANSCEIVER
A compact, stylish, solid and affordable hand-held transceiver providing communication on the International Aircraft Communication Band. Additionally, it provides receive on the Navigation Band. Boasts 700 mW of clean audio output and it also provides 8.33 kHz synthesizer steps for the new narrowband channel plan. Displays 100 channel memory* Channels, VOX, and Side Tone are just some of the many features provided. The channel configurations can be easily reprogrammed in minutes using the optional PC programming kit and your PC. Comes packaged with Yaesu FTA-230 Handheld Radio, BNC Helical Antenna (VHA-73), 110V charger with desktop charging cradle (PA-48B, and CD-32), NiMH battery (FN8-83), headset adapter (CT-96), and Alkaline battery tray (FBA-25A) 12V DC charging sleeve (CD-59). FTA-230 110V FTA-230 220V

YAESU FTA-310 TRANSCEIVER
Based on the same design as the extremely popular VXA-300. Now with and improved BNC antenna connection, and a unique 12DC charging sleeve. Features a more powerful audio amplifier than ANY other hand held airband transceiver and comes supplied with a 1400 mAh nickel metal hydride battery pack that provide almost double the battery capacity of Icom's IC-A23 or IC-A5! Includes: FTA-310: 5W Portable VHF Transceiver with VOX, ATN-10: Helical Antenna (Q3000194), CN-3: SMA to BNC adapter, FBA-25A: Alkaline Battery Tray, FN8-83: 1400 mAh Ni-MH battery, CD-28: Charging cradle, E-DC-58: DC cable with 12v cigarette lighter plug, PA-48B: 110VAC Overnight charger, CT-96: Headset Adapter Cradle. Note: The 220v model comes with the PA-48C: 220 VAC Overnight charger.

YAESU VERTEX FTA 550L VHF HANDHELD RADIO/GPS COMBO
The YAESU FTA-750L combines tradition with innovation. Born from a history of high quality communications the FTA-750L now includes a 66 channel GPS programmable receiver providing full communication on the Aircraft communications Band and additionally provides VOR and ILS navigation features on the "NAV" band, and waypoint navigation with the built in GPS receiver. The FTA-750L includes NOAA weather band monitoring and the capability of programming up to 200 memory channels with quick and easy channel recall, the brand new easy to operate menu system is icon driven making it simple to navigate through all the powerful features this transceiver has to offer. Additionally the FTA-750L can be easily reprogrammed in minutes using the optional PC Programming software and the supplied USB programming cable. Features: Integrated 66 Channel WAAS GPS receiver / GPS Position Logging operation / ILS (Localizer & Glide Slope) and VOR Navigation / Easy to operate menu system / Huge Dot Matrix LCD display / 200 Memory Channels in memory bank / PC Programmable. Specifications: 25kHz & 8.33kHz spacing / 5 Watts TX Output Power / Huge 1.7” x 1.7” Full-Dot Matrix Display (160 x 160 dots) / ILS Navigation Display (Localizer and Glide Slope) / VOR Navigation Display / Easy to operate menu system / Integrated Channel Memory / GPS Navigation / NOAA Weather Channel receive (U.S.A. Version Only) / NOAA Weather Alert* / 200 Memory Channels with 15 alphanumeric characters / Back-lit Keypad and display with dimmer / Water Protection (IPX6 rating / Loud Audio (800 mW).

VA7ESU VERTEX FTA 550 VHF HANDHELD
The YAESU FTA-550 is packed with features, yet very affordable. Boasting an oversize full dot matrix LCD display, the FTA-550 Airband Transceiver provides full communication on the Aircraft communications Band and additionally provides VOR and ILS navigation features on the "NAV" band. The FTA-550 includes: NOAA weather band monitoring and the capability of programming up to 200 memory channels with a quick and easy channel recall feature. The brand new easy to operate menu system is icon driven making it simple to navigate through all the powerful features this transceiver has to offer. Additionally the FTA-550 can be easily reprogrammed in minutes using the optional PC Programming software and the supplied USB programming cable. Features: Easy to Open Menu, Huge Dot Matrix Display (160 x 160 dots) / VOR Navigation Display / 200 Memory Channels with up to 15 Alphanumeric characters. Specifications: 25kHz & 8.33kHz spacing / 5 Watts TX Output Power / Hands free operation / Huge 1.7” x 1.7” Full-Dot Matrix Display (160 x 160 Dots) / ILS Navigation Display / NOAA Weather Channel receive* / NOAA Weather Alert* / 200 Memory Channels with 15 alphanumeric characters / Back-lit Keypad and display with dimmer / Water Protection (IPX6 rating / Loud Audio (800 mW).
