**PS ENGINEERING PM 1000I 4 PLACE MONO PANEL MOUNT INTERCOMS**

PS Engineering’s renowned voice activated intercom (VOX) eliminates clipped words and shouting. Other features include individual volume and squelch controls for the pilot and copilot. Music can be added to the intercom for in-flight entertainment. Automatic muting when the intercom is active, or intercom and radio (PM 1000i-series) ensures uninterrupted communications. PS Engineering’s “SoftMute” gradually returns the music to the original level when conversation stops. PM 1000 is an effective 2-place intercom, with individual volume and squelch controls. PM 1000I adds a transmit indicator lamp, music muting during radio traffic. The PM 1000I, 11-11922, has pilot isolate mode that allows the pilot to concentrate on flying, while the passengers enjoy music and conversation. The PM 1000I with CD player (P/N 11-11920) allows for separate music for the pilot and copilot positions, as well as separate music sources for front and back. On all PS Engineering intercoms a wire harness must be done by PS Engineering or a PS Engineering dealer or warranty is void. For a quote on 11-11922 PM 1000I with out crew wire harness, or on 11-11253 please call 800-826-3160. Warranty: 1 year, Unit is TSO’d.

**XCOM INTERCOM**

Digitally controlled, intercom system suitable for nearly every 2 or 4 place aircraft. Features a full VOX (Voice Activated) intercom with second com ability, music input with muting and the ability to use different branded headsets without compatibility issues. Successfully mated to the leading hand-holds as well as panel-mounted Icom, Narco, King and the like. Measuring only 2-1/8 x 1 x 3-7/8" or (33 x 24 x 100mm) and with a panel size of only 1 x 2-1/8 (33 x 24 mm), it’s one of the smallest and lightest intercoms in the world and only draws 25mA during operation. Mount horizontally or vertically. No voice clipping. Monitors and reduces background noise when the voice circuit is open. One simple DB15 connector is all that’s needed. R5-232 port for future software updates. 2 or 4 com inputs can be for a primary intercom or auxiliary VHF, UHF or Marine band transmitter. Additional input for CD player, FM Radio or MP3 player is available with auto muting to enable seamless communication in the cockpit. Voltage: 10-30 VDC, 2 yr warranty.
