ANGLE DRILL ATTACHMENT

Quickly connects to any drill chuck. Makes a convenient, inexpensive close-quarter tool. 3/16" drill capacity. Specify threaded spindle size: 5/16-24 (P/N 12-18503), 1/4-28 (P/N 12-18501) or 10-32 (P/N 12-18502)...

Angle Drill w/ Key Chuck (1/4-28 Only)...

ANGULAR DRILL KIT

Includes tool case, 24" flexible attachment, 4 threaded drills, collet adapter, 90° angle drill, straight drill, 4 collet drills.

ANGLE DRILL COLLET & CHUCK KIT

This 10-piece kit gives you 3 different methods of drilling in tight spots. Each shank is 1/8" x 28 threads. It's just what you need for close quarter drilling. Features: Capacity from 1/16" to 1/4" 3/4" length, 0.13 lbs - Wrench included.

CONE JAW CHUCK

Heavy duty yet mini size fits any angle drill or attachment with 1/4" x 28 threads. It's just what you need for close quarter drilling. Features: Capacity from 1/16" to 1/4" 3/4" length, 0.13 lbs - Wrench included.

DRILLS - TAPS - DIES

Hand thread taps

There are three basic types of straight thread taps:

PLUG TAPS - used for ordinary threading and have a 3 to 5-thread chamfer, or relief, at the point.

TAPER TAPS - have 8 to 10 threads chamfered for easy starting and are used for tough jobs.

BOTTOMING TAPS - with their short chamfer (1 to 1-1/2 threads) are used where the thread must go to the bottom of the hole. Specify Plug, Taper or Bottoming Tap.

TAP EXTRACTOR SET NO.1 6PC

Remove broken taps and save the threads! Walton Tap Extractors let you remove broken taps without drilling, lasers, damaged threads, scrapped parts or repair inserts. The hardened steel fingers of Walton Tap Extractors fit in the flutes of a broken tap to back it out simply and safely. This effective method has been used since 1908. They are available in every tap size, both inch and metric, as handy sets or individual pieces. The Tap Extractors will fit both NC and NF taps. Sizes: 3/16", 1/4", 3/8", 7/16", 1/2".
