CHECKMATE CHECKLISTS
Checkmate is the only checklist that contains virtually all data desired by pilots to fly the airplane while excluding the extraneous information which leads to inefficiency, confusion and even refusal to look. They eliminate the tedious and cluttered 15-page flip-book that pilots quickly become discouraged from using.
Checkmate contains the most comprehensive V-speed section in the industry. V-speeds are given in Knots and MPH. Checkmate makes a dramatic difference in everyday use, but also in critical situations. Emergency procedures are right there! Every time! With most of the emergencies there is no time to flip pages looking for the correct procedures.
Available for over 300 single and twin engine aircraft. All follow a standard format. Used by some of the best flight schools in the country.
Checkmate Standard Checklists is 6.5" x 9" size. Checkmate Compact Checklist 5" x 7" size.
