VFR/IFR PILOT FLIGHT DESK
The PFD-3 PILOT'S FLIGHT DESK, first designed and introduced by APR Industries, puts essential VFR and IFR information right at your fingertips. The VFR side, with a small bear clip, holds flight logs and approach plates while the larger bear clip on the IFR side opens to 1" and is designed to hold aeronautical charts and radio facility approach books. Non-slip foam on the underside of the board helps to hold everything securely in place.

APR's PILOT'S FLIGHT DESK is the best available! The PFD-3 has 3 clips along with all the features PFD-1 provides additional uses such as clipping long sections of flight charts, approach charts and log sheets (VFR/IFR / IFR-200). Includes a pad of logs with sample sheets designed by Capt. Barry Schiff. Dimensions: open size: 16" x 9", folds to: 8" x 9". Anodized Aluminum, 0.090" thick. P/N 13-11734............................... $27.85

ASA IFR& VFR KNEEBOARDS
These IFR and VFR Knee-boards are an attractive, light gray, brushed aluminum. Instrument and visual information is clearly silkscreened on the boards so pilots can quickly reference rules at a glance when operating a cyclic or stick. All information on the Kneeboards match current Federal Aviation Regulations. The Kneeboards feature a comfortable, 1.5" wide elastic legband that hugs the leg without binding. Velcro fasteners can be adjusted without removing the kneeboard and fits all leg sizes. A pencil/pen holder is designed into the leg for fast note taking. The Kneeboards also feature a 4-3/4" wide metal clip that is easy to lift and strong enough to hold NOS charts and other necessary papers. Paper- protector elbows secure material, yet papers won't rip when pulled out.

NAV-DATA LIGHTED KNEEBOARD
Nav-Data KB-170 Lighted Kneeboard
Rugged molded construction used by the U.S. Military with heavy duty elastic strap and buckle to keep it firmly in place. Also has a contoured bottom and foam strips for extra stability. Rheostat control for perfect lighting. Holder for multiple pens or pencils plus built in pencil sharpener. Upper clip opens 1" wide to hold even large approach plates for more versatility. Compact dimensions: 10"x5.5". Lightweight: approx 16 ounces Operates on 3 AA batteries (Not Included).
P/N 13-13199................................. $59.95

THE PEN PAL
The Pen Pal frees up the hand of a person who would otherwise be holding a flashlight or writing utensil or any other object while flying. Designed to be fastened to most writing utensils, The PenPal minimizes the user's loss of low light vision adaptation while preventing loss of the utensil in the dark. Preserving low light visibility in night flight is impera- tive; and so is almost every other cockpit task that requires a light. The PenPal is the solution. Pilot tested and approved. The PenPal is bright enough for filling out departure clearances, weather, power settings and log books and dim enough to minimize the loss of low light vision capa- city. A lanyard can also be attached to the grip keeping your lighted writing utensil at close reach.
