The B2 Compute starts with the 2" Center Section, which is designed to hold 13" laptops. Add a Front and Rear End Cap and you have an extraordinary laptop bag. The Front End Cap allows you to store items such as voter cards, backup drives, flash drives, digital cameras, smart phones, tools, keys, etc. Meanwhile, the Rear End Cap allows you to store your manilla folders and documents. This can be used daily or you can attach the 2" Center Section to any other FLEX module. For example, you can zip it in between the Front Bag and the Rear Bag when traveling. This bag also includes the Portfolio Handle which can be attached to the Front End Cap. This can only be used when you decide to remove the Center Section Two and zip the Front End Cap and the Rear End Cap together to make a “Portfolio Bag”.

The B6 Convey is perfect for VFR Pilots, but also has many uses outside aviation. For the VFR Pilot, one often needs only the essentials when going flying: Headset, sunglasses, GPS, todays charts, kneeboard, radio, etc. With the B6 Convey, you get a front bag, a rear end cap, a radio pocket and a pen pocket. The B6 is perfect for that day or spending time in the pattern perfecting those landings. Why bring more bag than you need? The B6 Convey also makes a fantastic travel bag. Whether you are travelling, store your 13” laptop, power cords, smart phone, snacks, pillow, iPad, magazines, iPod, keys, DVD’s etc., in a small efficient bag that fits right under the front seat. It really is the perfect carry-on bag.

P/N 13-11849..........................$125.00

The B7 Flight is the FLEX version of our award winning original Pilot Flight Bag updated by now being configured with End Caps and Center Sections to allow even more flexibility. The B7 Flight is probably the most useful flight bag ever designed. It’s a fact that some days you need more gear than others. The B7 lets you carry a full set of flight gear for cross country and basic IFR flight. And then it lets you downsize to a smaller bag for those days when you’re just going to take a quick VFR flight.

P/N 13-16012..........................$199.75

The B10 Classic is the FLEX version of our award winning Brightline Bags Pilot Flight Bag. The B10 Classic is the same small, efficient, superior flight bag it was before, it is now just turbo charged with the FLEX System. Perfect for VFR to light IFR, the B10 satisfies most pilots needs. The B10 Classic will hold two headsets, portable GPS, Glasses, charts, kneeboards, Phones, Keys, iPads, folders, multi-tools, fuel testers, flashlight, E6’s, and more. The B10 Classic comes with a front and rear bag, a removable radio pocket and a removable pen pocket. Want a different pocket? Simply replace one of the pockets and add it to the bag.

P/N 13-18500..........................$143.00

The B25 Carryall is designed to carry all you will ever need. Designed primarily for aviators who need to pack overnight items, such as clothes, shoes, coolers, etc., the B25 Carryall fits the bill when maximum space is required. And, like any bag in the FLEX System, the 11" Center Section can be removed by simply unzipping it and removing it, leaving you with the B10 Classic and all of your flight gear.

P/N 13-18582..........................$265.00

This is the front portion of all of the standard configurations. It is designed primarily to be a document bag. But, of course, it is a good size to hold all sorts of different stuff like a change of clothes, your lunch, a laptop and/or an iPad, or simply some additional gear that you need to carry. The Rear Bag is 13.5" x 10.5" x 3.5" on the outside. The main compartment is 13" tall, 10" wide and 3.0" deep on the inside. (And remember, it is a soft bag so it can expand slightly in every direction.) There are zero FLEX-Mount pocket stations on the outside of the Rear Bag. (It’s a little too narrow.)

P/N 13-11980..........................$49.00

This center section is 13.5" x 10.5" x 2.0". Not designed to be used by itself due to the possibility of damaging the exposed zippers. Can be added to any configuration to add storage for your 13" laptop. Simply zip the CS2 into a B10, B16, or B25 to get added storage for your 13" laptop, iPad, or folders and documents.

P/N 13-11981..........................$34.99

Slide the two pairs of o-rings onto the main handle of the Brightline Bag and nestle the J-hook from your main suitcase in between the two pairs of o-rings to keep the J-hook from sliding side-to-side on the main handle of the Brightline Bag as you pull your main suitcase around. Includes two pairs of o-rings (total of 4).
