- **5813 "Do Not Tow"** - 3" x 16", yellow printing on red reinforced vinyl with grommet and ring. 2" securing strap with grommet and velcro.
  - P/N 13-06401 .......................... $10.95
- **4604 "Remove Before Flight"** - 2" x 16", white printing on red reinforced vinyl with grommet and ring.
  - P/N 13-06396 .......................... $4.95

**PITOT TUBE COVER INSTALL TOOL**

This tool was developed, in response to fleet owner and FBO requests. They were having experienced difficulty installing Covers onto high wing Pitot Probe locations, e.g., Cessna Caravans, Bush aircraft with Tundra tires, float planes and amphibians. In field trials it was found that this tool is also very useful to install-remove the same Covers onto over-the-nose Pitot Probes, of Very Lite and commercial jet aircraft.

- **Features:**
  - View-Through cover grippers for easy install
  - Low mass for control in windy conditions
  - View-Through cover grippers for easy install
  - Low mass for control in windy conditions
  - Ergonomic shape to reach high wing, and most over-the-nose mounted probes
  - All weather non-slip handle grip
  - Printed on red reinforced vinyl with grommet and ring.

Price: $28.75

**PITOT TUBE PLUG 3/4 INCH TAKE OFF EH**

* **Our very durable 3/4" inside diameter vented pitot plug with its unmistakable conspicuous Remove-before Flight Streamer provides a perfect easy-on, easy-off solution.**

The blazing yellow color of this foot-long, ANSI-compliant and weather-resistant reflective streamer stands out equally well in daylight or darkness under all weather conditions, so it can’t be missed. The poly plug is attached to the streamer’s rugged black oxide coated zinc eyelet with a stainless steel ring. This Plug Fits Cessna 150, 152, 172, 177, 182, 200 series, and 337 models.

Price: $13.95

**PITOT TUBE PLUG 5/8 INCH TAKE OFF EH**

The Plane Sights 5/8" inside diameter vented pitot plug with its unmistakably conspicuous Remove-before Flight Streamer provides the perfect easy-on, easy-off solution, while protecting against insect and water contamination. The blazing lime green colour of this foot-long, ANSI-compliant and weather-resistant reflective streamer stands out equally well in daylight or darkness under all weather conditions, so it can’t be missed. The plug is attached to the streamer’s rugged black oxide coated zinc grommet with a galvanized steel ring and is vented to prevent pressurization damage to the pitot static system. This 5/8" Plug Fits Aero Commander, Twin Beach, Bonanza, Cessna 300/400/500, Conquest Series, Grumman, Lear, Mooney, Piper Cheyenne and Navajo aircraft.

Price: $13.95

**LIGHT SPORT PITOT PLUG KIT TAKE OFF EH**

* **The Plane Sights extremely conspicuous and very durable Light Sport/Homebuilt Pitot Plug Kit provides a perfect fit for many homebuil**t pitot tubes, light sport pitot tubes, and aircraft fuel vents. The kit includes several vented plugs so it even works with double tube systems and is guaranteed not to pressurize your pitot static system. The blazing yellow color of the included foot-long, ANSI-compliant and weather-resistant reflective remove-before-flight streamer stands out equally well in daylight or darkness under all weather conditions, so it can’t be missed. The kit comes complete with three different-sized pitot tube plugs, our unique streamer, and two rust-resistant coated triangle rings. The kit can also be used to prevent insects from plugging your fuel vent, which is known to cause loss of power with Cessna, light sport and home-built aircraft.

Price: $13.95

**BRUCES UNIVERSAL CUSTOM PITOT TUBE COVERS**

* **The Original and World’s Finest Aircraft Covers for Airplanes, Jets, Helicopters, Gliders and QEC Off-link Jet Engines.**

Once the material for each order is cut into its appropriate parts, highly trained sewing machine operators meticulously assemble the products with durable thread, rivets, and any fuselage modifications. Pitot Tube Covers, made of Naugahyde vinyl, are designed to cover the entire pitot assembly. Slipping on over the tube, the cover tightens around the base with a special Velcro strap detail. A “remove before flight” streamer is attached to the cover. Non-burning Pitot Covers are designed to withstand more than 500°F Fahrenheit, and will prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on with the pitot cover attached.

Pitot Tube Cover for the following applications:
- Beech: Bonanza B35, Bonanza B36, Baron B58
- Cessna: Cardinal 177, Centurion 210, Convals 350
- Cirrus: SR20, SR22
- Grumman: American AA5
- Piper: Comanche PA24, Cherokee Six PA32
- Lancair: IV, Columbia 300, Columbia 350, Columbia 400, Lancair 320, Lancair 360
- Mooney: Ovation, M20, 201, 205, 231, 252 & M20 MSE

Price: $28.75

Pitot Tube Cover for the following applications:
- Cessna: 150, 152, 172, 175, 180/185 Skywagon, 182 Skyplane, and 206 Stationair
- Grumman AA1

Price: $28.75
