REVERE AERO COMPACT LIFE RAFTS

Our lightest and most compact liferaft... ever! Ideal for general aircraft, the Aero Compact series offers an enhanced level of safety for over-water flights. With double 200 lb. ballast pockets, the Aero Compact enhances stability in the roughest of sea conditions. Its light weight allows for easy deployment, and the compact size makes stowage in even the smallest of spaces. Equipment Pack Contains: 2 Red Hand Flares - USCG/SOLAS, Baller, Signal Mirror, Paddles, Repair Kit, Seascik Tablets, Water Tight Flashlight, Extra Flashlight Batteries, Whistle, Sponges, Floating Knife. Specifications: Weight: 13 lbs. - Dimensions - Packaged: (L"xW"xH") 14 x 9 x 5. *Neither Canopies or Equipment Packs are available for 2-Person Aero Compacts.

REVERE AERO ELITE LIFE RAFTS

The Aero Elite offers both crew and passengers easy usage when facing the stress of a life threatening situation as opposed to other liferafts that can be difficult to lift and transport at the time of need. Vertical bulkheads inside divide the tube into two independent air-holding compartments. If one compartment is punctured, the other keeps you afloat.

The Aero Elite includes one large oversized tube 13" round as well as an automatically inflated canopy. Offering a spacious 4 square feet per person, the Aero Elite also includes a heavy duty boarding ladder for entry assistance. The Aero Elite also includes an inflatable floor, stowage pockets, zippered windows, flashing strobe, extra large ballast pockets, an extensive array of equipment including USCG/SOLAS Flares plus much more. A training DVD comes with the raft to help you and your crew prepare for use in an emergency situation. The Aero Elite is vacuum-packed to add greater protection against the environment and minimize servicing costs as service is required just once every three years. If serviced according to manufacturer's specs, the Aero Elite offers a 12 year warranty. Equipment Pack Contains: 2 Red Hand Flares - USCG/SOLAS, Baller, Signal Mirror, Paddles, Repair Kit, Seascik Tablets, Water Tight Flashlight, Extra Flashlight Batteries, Whistle, Sponges, Floating Knife. Specifications: Weight: 13 lbs. - Dimensions - Packaged: (L"xW"xH") 14 x 9 x 5. *Neither Canopies or Equipment Packs are available for 2-Person Aero Compacts.

SWITLIK INFLATABLE LIFE RAFT

The Switlik ISPLR brings advanced military design and mission-proven durability to a single place life raft available for mariners and pilots who are serious about their personal lifesaving equipment. Fully reversible. The unique U-shaped design allows the raft to be fully reversible, allowing quick, easy entry from the water - whichever side is up when it automatically inflates. The ISPLR’s low slung floor design allows seating at a slight recline lowering the center of gravity well below the waterline, increasing stability in rough waters. Zip to the elements. Twin zippers, located on either side, allow you to partially close the canopy, keeping the elements out while providing great ventilation.
