**SWITLIK AVIATOR LIFE VEST**

The Switlik Aviator Life Vest is supremely more comfortable to wear, and specifically designed for the seated position in an aircraft. It’s the vest you’ll forget you’re wearing. The new interior cell folding technique eliminates any annoying, open seams. High visibility design allows the Aviator to lay over your shoulders relieving the pressure on your neck during those long flights. We have located our new beaded handle in the center of the vest allowing for an easier approach for deployment. The breakaway safety feature eliminates the risk of snagging. The red handle also offers the best visibility in low light conditions. The Switlik Zipper closure keeps your inflatable vest secure at all times. The simple reliable dual breakaway design provides immediate inflation when activated. Backup oral inflation tubes are conveniently located on either side of the vest and easily reached through the side access flaps.

**SWITLIK X BACK AIR CREW LIFE VEST**

The aptly named X-Back is ergonomically fitted to your shoulder contour for a perfect fit. As accessories are added the weight is distributed over your shoulders and off your neck for vastly improved comfort. The adjustable X-Back straps provide enough range making it one size fits all. The MODULAR Lightweight Load-Carrying Equipment (MOLLE) side panels allow you to attach the accessories away from your midsection. The simple reliable dual breakaway design provides immediate inflation when activated. Backup oral inflation tubes are conveniently located on either side of the vest and easily reached through the side access flaps. They incorporate a breakaway safety feature to prevent snagging.
