**RESPONSE PACK**
When travelling light, or when you may need to move out in a hurry, it pays to keep all your essential items together, with a place for everything this multifunctional carry case also doubles as a fanny pack, or as the British would call it, a bum bag. We use the same heavy duty materials in the Response Pak as we do in our series of backpacks. The Response Pak has a multitude of hidden internal storage pockets. The Response Pak has quickly become a favorite among military members as a great little med bag, perfect for those vital items each soldier needs. Supplies are NOT included  
Olive..............P/N 13-10261 .............................. $24.65  
Black..............P/N 13-10262 .............................. $24.65  
Coyote........P/N 13-10263 .............................. $24.65

**FLIGHT SUIT XFIRE**
Those who fly, service aircraft, carry out tactical assignments, or search for victims and survivors all encounter risks in the performance of their duties. These easy to wear 27-P flight suits simply slip on over street clothes, zip up the front and they’re ready to go. They combine high comfort with field tested and laboratory certified protection. Made from INTERLOCK, a fire resistant Nomex blend, provides an extra measure of assurance that you’ll complete your mission safely time after time - and sets a new standard in comfort and safety. The new XFIRE Interlock fabric meets or exceeds the requirements of NFPA 2112-2007 standards on flame resistant garments for protection of industrial personnel against flash fires. The suit is fashioned after the US military CWU27-P flight suit and comes with the standard design features you’ve become familiar with such as a bi-swing back, reinforced shoulders, vertical zipper pocket with belozed pen/pencil stalls on flap with hook & loop closure, 2 large upper chest pockets, ock & loop waist adjustments, name tape on above chest pocket, double pull full length zipper with inside protective flap, safety knife pocket, 2 cargo pockets with covered zipper opening, extra large calf pocket with covered zipper opening, zipper expansion opening with curtain at cuff, double needle stitched joining seams and more.

**NOMEX FLIGHT SUITS**
This Nomex flight suit is built to military specification FNS/PD 96-17 (MIL-C-83141A) as worn by all U.S. flight crews. Constructed of 92% Meta Aramid, 5% Para Aramid and 3% conductive fiber fabrics, which makes this garment flame-resistant. Features a two-way zipper with pull, six primary pockets, adjustable waist belt with VELCRO® brand fasteners, knife pocket on the left inseam, pencil pocket on the left sleeve and a gusseted back. Features:  
- Made with DuPont™ Nomex® N303  
- Fiber: Its thermal technology helps protect against hazards associated with electric arcs and flash fires including intense heat and flame. It is protection that’s built into the fiber itself. So, it can never be washed out or worn away.  
- Sewn to Military Specification FNS/PD96-17 (MIL-C-83141A)  
- As Worn By All US Flight Crews  
- Flame-Resistant Material  
- Two-Way Zipper with Pull  
- Six Primary Pockets  
- Adjustable Waist Belt with Velcro Fastener  
- Knife Pocket on Left Inseam  
- Peno/Pencil Pocket on Left Sleeve  
- Gusseted Back  
- Sage Green and Tan Flight Suits are Near Infrared (NIR) Compliant
