LogTen Pro Pilot Logbook App
LogTen Pro is the electronic logbook of choice for tens of thousands of Mac pilots in nearly 200 countries, and in every major airline. Designed to be completely customizable for your type of flying, country, region, company so you can track exactly what you need.

Features:
- Syncs seamlessly with iPad and iPhone versions (but not required)
- Data entry is quick and intuitive
- Easily imports existing data and you can customize to your needs
- Automatically tracks currency and duty limits
- Harnesses all of the power of Apple Smart Groups so you can slice and dice your data instantly to provide answers to any question about your flight time (great for insurance, flying clubs, interviews, etc.)
- Tracks certificates, ratings, endorsements, medicals, expenses and flight reviews
- Prints stunning reports and official logbooks, over 80 reports available out of the box or you can create your own!
- Automatically calculates night time
- Exports flights and trips right to your calendar
- Automatically processes airline schedule
- Visual limits lets you see at a glance if there’s any issues with your schedule
- Customer service second to none...
- A lot more

AVIATION SOFTWARE

MAX TRECSCOTT'S G1000 CD-ROM COURSE
There is a revolution sweeping through general aviation. All new aircraft ship with advanced glass cockpits and pilots are faced with the challenge of transitioning to these new systems. The most popular system is the Garmin G1000, and now you can master the system yourself with this new CD-ROM set produced by the author of the popular Max Trescott's G1000 Glass Cockpit Handbook. This course includes: More than six hours on two CD-ROM's, Large, full screen views of displays, Movie screen captures of operating knobs, Printable G1000 front panel displays, Tips from factory and Master CFIs, Narration by two CFIs for easy listening. Keyword searchable slides and transcripts, Optional quizzes to reinforce key points, Files that run on Windows, Macintosh and Linux.
P/N 13-05534 ........................................... $89.95

GARMIN G1000 GLASS COCKPIT BOOK
Learn about all Garmin G1000 features & differences Get the single source of information that educates pilots about all of the features and benefits of flying the Garmin G1000, and how features vary among aircraft manufacturers. Whether you fly a Beechcraft, Cessna, Columbia, Diamond, or Mooney, you’ll learn which Garmin G1000 features apply to your particular aircraft. Or, if you’re planning to buy a new Very Light Jet (VLJ) like the Cessna Mustang or Diamond D-Jet, this book will help you prepare while you wait for delivery.
P/N 13-05533 ........................................... $36.95

MAX TRECSCOTT'S CD-ROM COURSE
Makes it easy to learn all of the details of flying with WAAS. Designed for the Garmin 430W, 530W, 6900X and G1000, the course leads you step-by-step through flying these approaches. Videos demonstrate the flying of actual approaches, and software simulators let you practice loading and flying these approaches. The course is taught by Master CFIs Max Trescott and Susan Parson, who show you just to interpre the “gotchas” that can trick even experienced GPS pilots.

KITLOG PRO SOFTWARE
KitLog Pro is an organizational tool that allows the builder of any type of aircraft to create, archive, maintain, and display the entire building process. Whether your experimental aircraft is a plans-built EAA bi-plane, a Van’s RV, a Glaster, or even a Lancair IV-P, KitLog Pro is the most efficient way to ensure that you meet the requirements of a builder’s log for the certification of your homebuilt aircraft.

Features: Complete Builder’s log to satisfy FAA requirements
Detailed Expense Log - Test Flight Log - Medical Log - Weight & Balance Calculator
P/N 13-03705 ........................................... $49.95

WEATHER STATEMENT GROUNDSCHOOL
A CD-ROM-based course on METAR’s and TAF’s. Nearly 2 hours of stunning, interactive training is provided. Promotes learning through human interaction—not just rote memorization. A remarkable feature is the interactive weather controls, which enable the user to “control the weather.” Since weather codes are confusing to interpret, the user can click the “Speak-It” button to hear a verbal translation. This allows the user to correlate codes with a true, visual picture and understanding of the weather. This tutorial CD is perfect for all pilots, from students to rated pilots who wish to remain sharp and proficient. It’s also ideal for airport personnel, dispatchers, and anyone else who needs to view aviation weather information.
