PILOTS FREE FLIGHT ATLAS - USA
Base cartography is the US Road-Atlas 1: 2,000,000 which includes mountain ranges, lakes, rivers, etc. As well, all other elements such as, cities, towns, parks and points of interest or historic value and of course, the railways and motor-ways themselves.

To this, they have added all airports in USA (over 5,500) and colour coded them by runway length /surface and category i.e. International, Regional, Civil/Military, etc., VOR/DME, Reporting points, Waypoints), VHF frequencies and special Use Airspace are also shown making our new "Pilots’ Atlas" the first of it’s kind. Keymap for 106 pages cartography. Scale 1:2,000,000. Distance, Pilot Metro and Weather Radar Map Satellite Photo. Political Map. Cartography. Captains Corner Airport Directory with over 5,500 airports. Captains Corner Conversion tables + crosswind component

PILOTS FREE FLIGHT ATLAS - EASTERN HEMISPHERE
(AMERICA, MIDDLE EAST, & SOUTHEAST, ASIA)
INC scale, topographical charts are used showing over 4,500 airports. Waypoints, VOR/DME, NDB’s and special use airspace are included, plus weather frequencies, points of interest, landmarks, airport-directory with ICAO-codes, railways, rivers, major highways, just to name a few. Airports are colour coded by runway length and surface. International/ regional Aerodromes are coded by symbol shape. Pilots now have the ability to point out objects on the ground or know immediately where they are in relation to surrounding airports or points of Interest: an all-in-one source of information for pre-flight or during flight.

IFR AREA CHARTS - U.S.

AIR TRAVELER'S MAP
Intended for the airline or business jet passenger, this flight reference map is designed primarily for trip planning and referencing landmarks of the USA while in flight.

The folded flight map is printed on durable tear-proof paper and fits perfectly in a seat pocket or briefcase, making it a great gift for the "Frequent Flyer!" Flight Map Measurements: 8 1/2” x 11”

U.S. QUICK REFERENCE WALL MAP
Due to popular demand, we have come up with an extra large version of our popular Aviators' Quick Reference Map and made it wall-size. Perfect for use at home, office, hangar, briefing room, etc. This map depicts state boundaries, time zones, major cities and towns, rivers, lakes, mountain ranges, national parks and other points of interest. Also listed are major airports and VOR's (with frequencies for easy identification).

It is ideal for flight planning or "pinning" your favorite destinations. Measures 33" x 23” or 52” x 36” and is laminated so that you can write on it and just wipe it off. Makes for an attractive wall mount anywhere! Shipped to you rolled with no creases. Scale: 1” = 53 miles.

Wall Map U.S. Expanded...(P/N 13-05688) ........................................ $47.95

AVIATOR'S QUICK REFERENCE DESK MAP - US
The same map as the US Flight Case Map, without the folds and a 1 inch border added with latitudes and longitudes. Heavy paper map and laminate. Full map size: 33 1/2” x 23”.
P/N 13-05690................................................................. $30.95

FOLDED PILOT'S MAP
This map measures 3 feet by 2 feet and is encapsulated on both sides by a rugged 3 mil laminate for durability. The map is extremely detailed and includes hundreds of airports (civil and military), VOR's, NDB’s, terrain features, national parks, cities, time zones, etc. The back of the map has a very detailed AM radio frequency guide for all 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. Contains state information including capitals, square mileage, population, and nick names along with each state flag. Great for pilots and aviation enthusiasts.

Flight plan information, ATC light gun signals, cruising altitudes, and a crosswind component chart included.

Folded Pilot's Map...(P/N 13-11247) ........................................... $18.75
Pilot's Laminated Wall Map...(P/N 13-11248) ................................ $18.75
