

INSTANT GLUES – POLYFIX™ GLUES

INSTANT GLUES

These American made Instant Glue products were used extensively in construction of the "Around the World Non-stop" Voyager aircraft and are highly recommended for many homebuilt aircraft applications by Voyager Aircraft, Inc. and Rutan Aircraft Factory. They create a fast, permanent bond on many similar and dissimilar materials such as woods, metals and composite materials.

HOT STUFF™ - Odorless THIN have a consistency resembling that of water, used mainly for bonding parts which fit very well. 2oz
P/N 01-35500\$10.75

SUPER 'T'™ - A consistency similar to that of syrup and has the ability to fill small gaps between parts which don't fit perfectly. SUPER 'T'™ cures at a slower rate than HOT STUFF™, (10-25 seconds depending on the material). 2oz.
P/N 01-35600\$10.75

SPECIAL 'T'™ - Special 'T'™ and new UFO™ Odorless THICK are very thick cyanoacrylates with a consistency resembling cold honey. SPECIAL 'T'™ and UFO™ Odorless THICK have greater gap-filling ability than SUPER 'T'™ and more positioning time after contact of parts. The rate of cure is slow enough, (usually 50-60 seconds depending on the material), to allow precise alignment of parts, after assembly. 2oz.
P/N 01-01039\$11.75

NCF QUICK™ - Used with HOT STUFF, UFO Odorless THIN, SUPER T, and UFO Odorless THICK., and with it you can do almost magical things. NCF Quick works in three ways to make HOT STUFF, SUPER 'T' and SPECIAL 'T' Easier, Faster, Stronger and able to bond some of the most unusual materials you can think of. P/N 01-00689\$12.95

SUPER SOLVENT™ - Ultra Solvent™ is a remarkable debonder and cleaner for any instant glue. Use it for hand clean-up, removes instant glue from most clothing and surfaces. Some fabric, colorings or materials may be affected, so test-patch on an inconspicuous place.
P/N 01-35800\$9.75

POLYFIX 7000 EXTRA THICK

This non clog bottle will take care of the problems of plugged up tips. This Extra Thick C.A. polyfix works on ceramics, glass, metal, rubber laminating, soft wood, hard wood and is also water resistant. This C.A. can be carved with a knife or razor blade and can be sanded with foam which leaves an indistinguishable finish from plastic.
P/N 01-01217\$19.95

POLYFIX 8000 HIGH VISCOSITY GAP FILLING

This non clog bottle will take care of the problems of plugged up tips. This High Viscosity gap filling C.A. polyfix works on ceramics, glass, metal, rubber laminating, soft wood, hard wood and is also water resistant. This C.A. can be carved with a knife or razor blade and can be sanded with foam which leaves an indistinguishable finish from plastic.
P/N 01-01218\$19.95

POLYFIX 15000 THIN INDUSTRIAL

This non clog bottle will take care of the problems of plugged up tips. This thin industrial C.A. polyfix works on ceramics, glass, metal, rubber laminating, soft wood, hard wood and is also water resistant. This C.A. can be carved with a knife or razor blade and can be sanded with foam which leaves an indistinguishable finish from plastic.
P/N 01-01219\$19.95

POLYFIX™ 11000 GAP FILLING CYANOACRYLATE

This is a higher viscosity ca for loose fitting joints in which the adhesive must bridge gaps. Normally, the thicker ca is applied to one surface and then the parts are held tightly together for about 5 to 15 seconds. For large surface areas including those with close fitting joints such as lamination Polyfix™ 11000 gap filling should be used. To prevent premature curing, don't spread the glue into a thin film, lay down a serpentine bead with about 1" separation on one surface, then assemble the parts, letting the pressure spread the ca out. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 11000 Gap Fill 1/2 oz	01-01016	\$6.50
Polyfix™ 11000 Gap Fill 1/2 oz. Brush on	01-01238	\$6.65
Polyfix™ 11000 Gap Fill 1 oz	01-01017	\$7.95
Polyfix™ 11000 Gap Fill 2 oz	01-01018	\$12.75
Polyfix™ 11000 Gap Fill 8 oz	01-01019	\$36.75

POLYFIX™ 4000 INDUSTRIAL FLEXIBLE THIN

This low odor flexible thin ca is ideal for many applications. Low odor flexible does not turn brittle and remains clear, even if Accelerator. With Polyfix™ 10000 Accelerator it has superior shock resistance and still has good penetrating qualities and its application can be easier to control for ca and has a different, less irritating odor compared to regular ca's, but still can proven to be superior when bonding anodized aluminum. 1 fl. oz. MIL SPEC-A-46050-C. (CAS NO. 6606-65-1) P/N 01-01020\$15.85

POLYFIX™ 3000 CLEAR FLEXIBLE RUBBER GAP FILLING

Flex gap clear rubber toughened can be used in applications where you do not want the adhesive to be seen it is still superior to standard ca.'s when esthetics are important and a flexible bond is required this product is your best choice. It forms to soft urethane and vinyl plastic, and shock resistant bonds. MIL SPEC-A-46050-C. (CAS NO. 7085-85-0)

Description	Part No.	Price
Polyfix™ 3000 Rubber Fill 1 OZ	01-01021	\$6.75
Polyfix™ 3000 Rubber Fill 2 OZ	01-01022	\$12.50

POLYFIX NON-CLOG CYANOACRYLATE APPLICATOR

Reach in a small area where you need to do a repair. Can reach 5-1/2" or if you need to control small drops. Sold in boxes of 24.

Description	Part No.	Price
Non-Clog Applicator Regular Tip	01-01006	\$15.50
Non-Clog Applicator Fine Tip	01-01007	\$15.50
