

STEEL TUBING & ROD

4130 STREAMLINE TUBING MIL-T6736 NORMALIZED

The prices for streamline tubing have increased sharply. The only manufacturer of streamline tubing, Columbia Summerill, have encountered problems with cracking on the trailing edge intermittently for many years and it has been a worrisome problem for builders. In an effort to control the situation, Columbia Summerill have installed sophisticated inspection equipment in their plant to assure that no cracked tubing gets into the field again. The cost of the equipment is reflected in the prices for the tubing which must be shared by all.

Major Axis	Minor Axis	Wall	Equivalent		Wt./ Ft.	Part No.	Price Per Ft

E-4340 ROUND STEEL ROD SPEC. MIL-S-8503 COLD FINISHED ANNEALED

E4340 rod has high fatigue strength and maintains its hardness and strength qualities even at high temperatures. Excellent for use in highly stressed parts. Meets AMS2032 and is furnished normalized and tempered cold finished.

Dia. (In.)	Wt./Ft. (Lbs.)	Part No.	Price / Ft.
1	2.67	03-26700	\$44.50

BUSHING STOCK 1015/1020 STEEL

Seamless mechanical tubing may be used either statically or dynamically. Its close tolerance, good finish and dense structure make it ideal for parts such as shafts, bushings, bearings, etc. Tensile strength 80,000 PSI. Drill or ream for proper bolt fit.

Ordering tubing/bar by the foot. Add a dash number after part number to indicate length of tubing required.
Ex: 3 ft required add -3, 03-00100-3.

3/8" PIPER CHANNEL

Available in mild steel. 0.020" thick.
6-ft. length P/N 05-04564 \$9.95

IF MFG TEST REPORTS ARE REQUIRED THERE IS A \$15.00 CHARGE PER ORDER.
PLEASE INDICATE AT TIME OF ORDER
