

# CHERRY "POP" RIVETS

For conversion of the most frequently used "Pop" rivets to the corresponding CHERRY numbers, see the following table.  
**NOTE: SUBJECT TO PRICE AND AVAILABILITY OF CHERRY BRAND RIVETS. EQUIVALENT RIVETS MAY BE FURNISHED.**  
 Attention: Avdel has changed the mandrel design for some of their Cherry "N" Rivets. The change has not effected the strength of the rivet.

## CHERRY COMMERCIAL RIVET PRICE TABLE

\*All USM "Pop" rivets are 1/64" larger than nominal diameter. Presented here for cross reference purposes only. \*\*Quotations on larger quantities.

HA

**CHERRY** – Commercial rivets with maximum grip length greater than the material thickness may be substituted for a rivet of the required grip length.

Grip is total of material thickness
