PATMONT GSR CRUISER

The GSR Cruiser is the perfect machine for the customer wanting a quiet, reliable and economical motorized scooter with good performance, but also for beginners wanting an affordable, safe and easy to learn first scooter. The GSR Cruiser is also the perfect machine for motor heads and the after market community, as chassis upgrades and screaming engine mods are widely available. The GSR Cruiser's power plant, the new GPL290, is based on the high performance GP290RS engine, designed to be a very reliable, quiet and economical cruiser. Top speeds for the GSR Cruiser are in the mid 20mph range, and its horse power is similar to the earlier GSR40.

ECO RECO ELECTRIC SCOOTERS

EcoReco M3 scooter is an eco-friendly, efficient, portable, and smart electric vehicle, designed for your everyday urban use. In the form of a kick scooter, it is the most practical and economical last mile solution on the market. EcoReco M3/M5 can be easily stored under chairs or a desk, in a car trunk, in a gym locker, and it also works well with public transportations. Whether you're going the distance or just that extra mile, EcoReco M3 provides a convenient and economical ride for you, and cleaner air for all.

DAHON MU P8

The Mu P8 is one of Dahon's most versatile, all-around bikes. It's wonderfully light, fast enough for long weekend rides, and stylish enough to turn heads everywhere you go. Great performance and a good value. Lighter, stronger, and faster are the goals and the Mu P8 delivers on all three. 20" Cloud White
P/N 13-00789..... **\$799.00**

DAHON SPEED UNO

The answer for no-hassle riding anytime. Last year Dahon introduced the functional, simple, stealthy-looking Mu Uno and it quickly became the favorite of all who touched it. The Speed Uno is just as stealthy and portable but even simpler and more affordable. Take one everywhere. BioLogic FreeDrive keeps chain and clothes clean. Folds completely in under 10 seconds. Luggage Socket for attaching a variety of bags and baskets. Color: Shadow Black

DAHON JACK D7

The Jack is designed to go at any pace you choose and to roll over anything in your path. Forget leaving your urban machine in that communal bike garage and getting nicked and scratched; keep it inside and safe...with you. That's how it should be, right? The Jack is designed around a beefy 7005 aluminum frame and phat Schwalbe Big Apple tires. The Jack has seven nicely-spaced gears to keep things simple, enough for most anything you're likely to encounter in the city. What kind of bike is this? It's a human powered urban machine, Jack. Color: Shadow Black.

DAHON ESPRESSO

The Espresso is the bike for urban adventures: to the park on a sunny weekend; down the street for a lazy Sunday brunch; or to the market for some fresh penne, tomatoes, and a bottle of wine. For 2010, the Espresso gets a complete makeover. The patented new Dahon Axis stem lets you fold the Espresso with a minimum of effort and Schwalbe Big Apple tires mean that you go faster, in a lot more comfort. The new Espresso is a shot of caffeine to your cycling lifestyle.

DAHON SPEED P8

Probably the best combination of performance and value in our product line, the Speed P8 is perfect for long commutes, weekend exploring, or touring. The Speed P8 shares the same frame as the Speed Pro and combines it with our no compromise Premium component package. The Speed P8's stiff frame, rigid Radius handlepost, and plush-riding Schwalbe Big Apple tires inspire confidence on even the worst roads. Wheel Size: 20". Speed: 8. Folded Size: 30 x 77 x 64 cm (11.7" x 30" x 25"). Folding Time: 15 Seconds. Weight: 12.6 kg (27.8 lb). Max Rider Weight: 105 kg (230 lb). Colors Available: Fire Red, Obsidian.

VELOMINI PLUS WHITE ELECTRIC BIKE

VeloMinis are small, light weight, cute, versatile, convenient, and durable. They fold down so small and you can take it with you practically everywhere. Each VeloMini Plus includes a TrackR™ tracking system to assist with recovering your VeloMini should it be stolen or misplaced. The VeloMini+ has more power, which means a faster top speed and greater hill climbing capability. The battery, still hidden in the frame, uses the latest 26650 lithium cells. The VeloMini+ has an improved display showing speed, pedal assist, and battery level. All VeloMinis include front LED light, solar charging rear light, rack and carrying case. The VeloMini + is one of the lightest electric bikes in the world which folds to only 34"L x 24"H x 12"W.
