

Technical Data:

Certified AIRCRAFT, MARINE & AUTOMOTIVE Paint Remover (CAMA)

Part Number: CCP-C282

Military Specification: MIL-R-81294D TYI & TYII CL. 2A

Description: The Certified Aircraft, Marine & Automotive Paint Remover (CAMA) is a non-flammable fast acting Urethane, Epoxy and Marine finish remover. CAMA is scientifically formulated to remove the most difficult surface coatings and stains. Wash away action with water forms a foamy emulsion to get cracks, seems, moldings and crevices clean. This product is viscous and formulated to cling to vertical surfaces.

Directions:

- 1. Protect your hands with polyethylene or neoprene gloves. Open the container slowly to relieve any pressure. Pour into open top container**
- 2. Apply a generous amount of CAMA with a paint brush or spray gun. If you are brushing, lay on a full and consistent layer with one side of the brush. Do not brush back and forth. THIN COATS DO NOT WORK EFFICIENTLY.**
- 3. Allow CAMA to remain on the surface until the old finish begins to soften, blister and/or lift. The CAMA will begin to take affect 15 to 30 minutes after application, depending on the type of application. CAMA will stay wet for long periods of times; however, if removers dry out – reapply a second time – the old finish will bubble off. CAMA remover will NOT corrode metal.**
- 4. Finish may be washed or scraped off the surface. If you are scrapping wood, scrape with the wood grain not against. To wash away with water – use fine steel wool and water, or a wet towel to form a foamy emulsion. Carvings and moldings can be cleaned with a brush wetted with water. Rinse the emulsion off with a wet cloth or sponge, flush with the hose if possible. Veneers should be dried immediately. For stain removals, complete the directions above; then while the surface is still wet reapply the remover and wash with water.**
- 5. Due to the extreme strength of the CAMA remover it may darken certain natural woods. CAMA can be used on concrete – will not etch the surface.**
- 6. To refinish wood: allow surface to dry thoroughly. Sand lightly in direction of the wood grain before applying the new finish**

Approved Surfaces: CAMA removes Urethanes, Epoxies, Lacquers, Enamels, Vinyls, Latex, Varnishes, Acrylics, Shellac, Polyesters and high performance finishes from the following surfaces.

- Metal
- Wood
- Concrete

THIS PRODUCT SOFTENS LINOLEUM ASPHALT, RUBBER TILE, VINYL, PLASTICS AND FIBERGLASS

HELPFUL TIPS: Do not mix with any other product. For best results, use in temperatures between 65 degrees F and 85 degrees F and away from strong breeze and hot sun. Protect surrounding areas with a heavy plastic drop cloth. Do not use on linoleum, plastic, rubber, asphalt tile, fiberglass or other synthetics. Use over a small area, because health and safety risks will increase dramatically when used over a large area. If applying to a vertical surface, begin at the bottom and work up because vapors can accumulate near the floor.

CLEAN UP: Return unused stripper to the original container. The work area and tools can be cleaned up with soap and water. Wash arms and hands with cold water and soap.

DISPOSAL: Take outdoors and allow liquids to evaporate and residue to dry. Then dispose of in metal container in accordance with federal, state and local regulations.

STORAGE: Once opened, stripper should be used within 6 months or disposed of properly to avoid can deterioration. Store in a cool place. Exposure to high temperatures or prolonged exposure to sun may cause can to swell or leak.

DANGER POISON. MAY BE FATAL OR CAUSE BLINDNESS IF SWALLOWED. VAPOR HARMFUL. EYE & SKIN IRRITANT. USE ONLY WITH ADEQUATE VENTILATION TO PREVENT BUILD UP OF VAPORS. Do not use in areas where vapors can accumulate and concentrate such as basements, bathrooms and small enclosed areas. Whenever possible use outdoors in an open air area. If using indoors open all windows and doors and maintain and cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness – STOP – ventilation is inadequate. Leave area immediately.

IF WORK AREA IS NOT WELL VENTILATED, DO NOT USE THIS PRODUCT.

A dust mask does not provide protection against vapors. Contains Methanol and Methylene Chloride. Cannot be made non-poisonous. Methylene Chloride has been shown to cause cancer in laboratory animals. The risk to health depends on the level and duration of exposure. Reports have associated repeated and prolonged overexposure to solvent with neurological and other physiological damage. Intentional misuse of this product by deliberately concentrating and inhaling vapors can be harmful or fatal. Avoid breathing of vapors or mist and contact with chemicals which are known to the State of California to cause cancer and reproductive harm.

FIRST AID – IF SWALLOWED, immediately call your poison control center, hospital emergency room or physician for instructions. **IN CASE OF EYE CONTACT,** immediately flush with water, remove any contact lens, continue flushing with water for at least 15 minutes, then get immediate medical attention. **IN CASE OF SKIN CONTACT,** irritation may result. Immediately wash with soap and water. If irritation persists, get medical attention.

KEEP OUT OF REACH OF CHILDREN
