

NEW IPAD, IPHONE USB CHARGER KIT DESIGNED WITH AN FAA-TSO 5V CONVERTER

FAA APPROVED UNDER TSO C71

Lone Star Aviation's new DC Down Converter is the smallest most efficient and most versatile DC converter in our industry. Available in multiple output models i.e. 24 -5v (7.5A), 24-9v (7.5A), 24-13.8 (7.5a), 24 -16 (5.0A) and 24 -19.0vdc (5.0A). This converter will power various items used in aircraft, rotorcraft requiring DC voltage to charge or operate: iPads, iPhones, cell phones, iPods, portable GPS units, camera's, EFBs and PC tablets.

The LS03-05105 MS-USB iPad Charging Kit is a panel mounted MS- Mil C-26482 USB charging port that is powered by Lone Star Aviation's FAA-TSO approved 24 vdc to 5 vdc converter. The MS-USB charger is designed for iPads, iPhones or other USB powered devices with the ability to charge and operate one or multiple MS-USB ports in an Aircraft or Rotorcraft. Lone Star Aviation's MS-USB charging circuitry is designed to meet or exceed Apple's specifications for charging the iPad, iPhone devices.

Converters:

- 90% Efficiency rating
- Light Weight 100 grams / 0.220 lbs.
- UltraSmall size 3"x 4"x1"
- Potentiometer for output adjustments
- Universal Mounting
- Operating Temp: -55C to +70C
- Circuit Protection: OV, UV, SC, SP, RP, OC, OT
- Easy Installation- remote on/off
- FAA TSO-C71 Approved

MS-USB Plug:

- Ipad, iPhone charges to 2.1Amps.
- Anodized Aluminium chassis with splash and dust proof cap.
- Mate and Lock connector for easy installation to iPad, iPhone or other devices.
