

BatteryMINDer®

Addendum to our
BatteryMINDer 36 Volt & 48 Volt Maintenance Charger

IMPORTANT

We are now including both our EZ Connector + Mounting Screws (EZC-01) and Ambient Temperature Sensor (ATS-1), already installed on the unit.

We are no longer offering the BC2410 Battery Clips or the ABS-248 Battery Temperature Sensor with the BatteryMINDer 36271 or 48021.

We anticipate easier installation with these new included accessories. These changes are not reflected in the manual so please keep this addendum in a safe place. If you have any questions, please email our technical support department at techsupport@vdcelectronics.com or call 800.379.5579 x6 (ET).

Thank you for using the BatteryMINDer for your golf cart battery maintenance charging needs.
