

liquid cleaners/degreasers

Since 1927, Arrow-Magnolia has helped people solve their cleaning and maintenance problems with the finest products available today.

HIGHLIGHTS

- Aircraft and Vehicle Wash
- Safe on Polished Metals
- Safe on Aluminum
- Heavy Duty
- Non-Flammable
- Non-Toxic
- Non-Corrosive

TYPICAL PROPERTIES

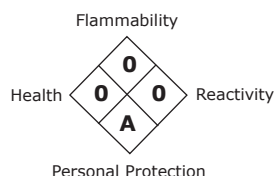

- Vapor Pressure: **31**
- Volatility: **94**
- Solubility: **Yes**
- Specific Gravity: **1.07**
- Vapor Density: **N/A**
- pH: **12.5**
- Evaporation Rate: **Slower than ether**
- Physical Description: **Clear Liquid w/ Characteristic Odor**

SAFETY CAUTIONS

- Keep out of reach of children.
- Keep container sealed.
- Shelf Life: One Year
- Refer to SDS for additional safety information.

FLEET WASH

Liquid

DESCRIPTION:

FLEET WASH is an excellent vehicle wash designed for high-pressure applications and is highly effective on road film. FLEET WASH is a premium liquid vehicle wash formulated to remove exhaust deposits, road film and bug residues from painted vehicle surfaces, all in one application without brushing. Pleasantly scented and stainless, it leaves no oily film or residual gumminess. Safe to use on metals, electrical insulations and most painted surfaces, it will pay for itself in its virtually unlimited applications by replacing many obsolete cleaners with one all-purpose concentrate.

Contains synthetic, biodegradable detergents that rinse freely and completely to eliminate streaking. FLEET WASH cleans effectively, in most cases and reduces the need for manual brushing.

DIRECTIONS:

General Cleaning: Use 40 parts of water to 1 part of FLEET WASH. Proper dilution can be determined through actual practice and use of the product. Can be applied with a spray gun or by rag or brush hand application. On heavy build-up, rag or brush will aid cleaning. Just hose off and let dry.

Steam Cleaning: Prepare solution in tank by using 1/2 gallon of FLEET WASH per 60 gallons of water. Actual use will determine final proper amount. Amounts of degreaser will vary with job. This degreaser will completely remove all grease and oil anodizing the surface to retard rusting. Will not corrode aluminum or aluminum alloys.
