

## WATCH-IT

Chronograph on Wheel  
(Horizontal)

Chronograph on Bicycle

Calculator on Yoke Tube

A versatile and unique mounting bracket for holding stopwatches, timers and wrist chronographs to aircraft yokes and wheels. Constructed of durable, lightweight and glare-resistant materials to ensure years of service under extreme conditions.

The WATCH-IT's simple and effective design attaches to most aircraft yokes ranging from 3/4" to 2 3/4" without the use of tape or screws. The base mount is extremely flexible and rotates to allow easy viewing of your flying accessories.

### MOUNTING INSTRUCTIONS

The WATCH-IT can be installed in just a few seconds. Simply place the mounting bracket on the yoke, slip the Adjust-a-Band cord around the bottom of the yoke and into the slots of the base unit. Squeeze the top of the plastic keeper and pull the rubber cord until tight then release the plastic keeper.

To mount your device make sure the surface is clean and dry. Install the round Velcro fasteners to the back of your device and press securely onto the mounting pad of the base unit.

The WATCH-IT can also be used to secure devices to steering wheels and handle bars on cars, trucks, motorcycles and bicycles.
