TERIES - CHARGERS

POWERSONIC BATTERIES

Power Sonic sealed maintenance-free batteries allow safe, trouble-free operation in any position. You never need to add electrolyte; gases generated during over charge are recombined in a unique "oxygen cycle". Under normal operating conditions, 4 or 5 years of dependable service can be expected in standby applications, or between 200 and 1000 charge/discharge

cycles, depending on depth of discharge. Temp. range: -76° to +140°F. 3-AMP BATTERY - Model: Powersonic PS-1230, PPS SKU: 35L116S1 Shipping Weight: 3 lbs, Dimensions: 5.23"L x 2.64"W x 2.36"H, Voltage: 12 Volts, Capacity: 3 Amp Hour(s), Chemistry: Lead.

AEROVOLTZ AI SERIES EXPERIMENTAL INTELLIGENT LITHIUM BATTERY

The Artificial Intelligence (AI) Series from Aerovoltz. The next-generation Al series of Intelligent Lithium batteries provide extended service life, less resistance, which means faster starts and quicker recharging if the battery is drawn down for any reason. The new case design has more robust DUAL terminals and is all-welded connections internally. Battery Management System (BMS)

All NEW Aerovoltz Intelligent Lithium Batteries contain a BMS system. A battery management system is an electronic management system inside the battery that manages the charging of the Battery by protecting it from overcharging, balancing the cells during the charging process and make sure the battery

AEROVOLTZ BALANCE CHARGER KIT

The only charger on the market designed specifically to work with the Aerovoltz battery. The primary advantage is the balance charging function. The Balance mode balances the voltage of each cell or cell pack while charging. By balance charging your you insure that the battery is operating at its maximum power. Periodic balance charging can also double the expected life of your battery. This charger is not required to operate your Battery, but it is highly recommended.

PULSETECH POWERPULSE

PowerPulse is not a charger. It's a performance device designed to help batteries charge faster and provide maximum performance and power. Used extensively by the consumers and the U.S. Military worldwide for almost ten years. The PowerPulse system can also be used together with an existing charging sys-

tem. In fact, it will work even faster and stronger. This means batteries can be both charged and desulfated at the same time.P/N 11-07464.....
