

Model H – Hydraulic Aviation Creeper

Product Name / Model: Ez Creeper – Model H
Category: Ground Support Equipment / Maintenance Tool

Product Description

The Ez Creeper (Model H Hydraulic Aviation Creeper) is a low-profile, mobile maintenance tool designed for aircraft hangars and MRO environments. It provides ergonomic support for maintenance personnel while performing inspections and repairs on aircraft undercarriage and hard-to-reach areas.

Technical Specifications

Feature

Specification

Creeper Material

High-strength aluminum frame, powder-coated finish; reinforced PVC Sponge
Leather padding (prop 65 compliant)

Shipping Dimensions

44" x 18" x 9"

Shipping Weight

34 lbs

Creeper Weight

32 lbs

Seat Height

7" to 16" (w 3" casters)

Seat Dimensions

13" x 13"

Backrest Dimensions

13" x 27"

Load Capacity

Designed for users up to 250 lbs during normal positioning and operation.

Dimensions in lowest position

42 1/2" x 17" x 7" (w 3" casters)

Working Height Range (height of operator's arm socket above floor)

40" without dismounting

Backrest Tilt Range

180° (flat) to 70° (slightly reclined)

Hydraulic Pump	Effortless operation with smooth, precise movement for easy pumping Platform lift: ¼ inch (6 mm) per pump Backrest lift: ½ inch (12.7 mm) per pump (one full pump stroke)
Hydraulic Oil Type Hydraulic Oil Capacity	Generic ISO 15 hydraulic oil 400 ml; refillable
Casters / Mobility	Swivel casters with brakes with load capacity of 110 to 300 lbs per caster
Assembly	Caster installation required
Usage	Indoor/outdoor hangar, general aircraft maintenance
Warranty	24-months limited warranty

Key Features & Benefits

- Manually operated hydraulic positioning system - precise control of height and position
- Smooth lift system – allows controlled and easy adjustments
- Ergonomic design – minimizes strain on technicians during work
- Lightweight aluminum material – easy to maneuver, portable, and easy to store
- Low profile design – fits into tight, hard-to-reach spaces
- Smooth, swivel locking casters for easy maneuvering around aircraft

Maintenance & Care

- Clean with mild detergent; avoid abrasive materials
- Inspect casters, and frame for wear before each use
- Tighten loose fasteners as needed

Part Numbers / SKU

- Internal SKU: EZC-H
