

TRANSPORTATION CERTIFICATE

True Blue Power certifies that the **MD302 Battery Pack Assy, 9017177**, has been subjected to and meets the requirements for the UN Recommendations on the Transport of Dangerous Goods, Manual of Tests and Criteria, 5th Edition, Amendment 1, Section 38.3.

Product Description: Battery Cell containing High Power Lithium-Ion, Phosphate-Based cell chemistry

Dimensions	2.95" (7.5 CM) L, 2.36" (6 CM) W, .79" (2 CM) D.
Weight	4.8 oz. (136 g).
Voltage	9.9 Volts
Capacity	1.1 Ah
Energy	10.89 Watt-hours
Module or Battery Configuration	1S (1 APR18650M1A Cell)
Equivalent Lithium Content	.99 ELC in grams (0.3*1.1Ah*3 Cell)

Transportation Requirements:

International and air within the United States of America

The UN Recommendations on the Transport of Dangerous Goods, ICAO Technical Instructions and IATA Dangerous Goods Regulations, Packing Instruction 965, Section II, govern the transportation of lithium ion cell and batteries. The listed battery meets the requirements of the UN-defined transport tests and does not have a rating of more than 100 Watt-hours. The listed battery is excepted from regulation pursuant to the requirements of IATA Dangerous Goods Regulations. When packaged alone, the battery is forbidden for transport on passenger aircraft and must be transported at no more than 30% State of Charge. When placed in equipment, the Packing Instruction 967, Section II of the IATA Dangerous Goods Regulations applies and can be transported on passenger aircraft. The IATA Dangerous Goods Regulations contain additional requirements on how the battery must be packaged and labeled for transportation.

Within the United States of America by motor vehicle or rail

The U.S. DOT Hazardous Materials Regulations 49 CFR 173.185 and IMDG Code, P903 and special provision 188, govern the transportation of lithium ion cell and batteries. Since the listed battery meets the requirements of the UN-defined transport test and have no more than 100 Watt Hours of energy, the battery is excepted from regulation pursuant to the requirements of part C in the 49 CFR 173.185 and Special Provision 188 of the IMDG Code. Detailed requirements on how the battery must be packaged for transportation is located in 49 CFR 173.185 and P903 of the IMDG Code.

For transportation emergencies involving this True Blue Power battery product within the US call CHEMTREC at 1-800-424-9300. Internationally, dial 1-703-527-3887 (collect calls accepted).
