

M-1 Configuration Worksheet

Electronics International Inc. will configure the M-1 to the range limits based on the data provided by the pilot/owner and/or mechanic. The data must match your aircraft's POH/AFM and all changes required by AD's, Supplements and/or STC's. Also, limits may be crosschecked against the manifold pressure instrument previously mounted in the aircraft panel. If any of the information provided on this form is wrong, there will be a fee to change the configuration.

NOTE: OVERLAPS AND GAPS ARE NOT ALLOWED IN CUSTOMER-PROVIDED RANGES. ALL VALUES, FROM ZERO TO THE HIGHEST VALUE, MUST BE DOCUMENTED.

| Manifold Pressure Limits | | | |
|--------------------------|-------|---------------------|--|
| Range | Color | Example | |
| | | 32 In. Hg., Red | |
| | | 0-32 In. Hg., Green | |
| | | | |
| | | | |
| | | | |

**** Check that all range and configuration information is complete and accurate ****

FAILURE TO SIGN THIS DOCUMENT WILL RESULT IN AN INCOMPLETE FORM, AND WILL DELAY YOUR M-1 ORDER.

I (the undersigned) have entered and verified all the limits on this worksheet to be correct and taken from the information in the aircraft's POH/AFM which includes all changes mandated by AD's, Supplements and/or STC's. I understand there is important safety information in the Installation and Operating Instructions that must be read before installing the M-1 and flying the aircraft.
