## Model 2300QC Twin Pac

- Patented

### DESCRIPTION

This 24V All-In-One air portable/carry-on START PAC® with built-in chargers, power plug and cables is ideal for starting aircraft, tank, and military truck engines. It is designed for engine starting only.

This portable starting unit is one of our most popular starters for use at home base and in the field. It will start turbine, or piston engines up to 1500 horsepower. This versatile 24 volt Twin Pac can be used as a single unit or separated for two complete units that can be easily carried on board different aircraft.

It is equipped with universal chargers that will accept 90-240 VAC at 50/60 hertz with a recharge time of less than 3.5 hours.

### SPECIFICATIONS

- 52 AMP hours @ 10 Hour Rate
- 2500 AMPS Peak Current
- Twin Pac trolley included
- "Y" connector included
- 138 LBS. / 62 kg Complete weight with built in charger and aircraft cable
- Not to be used as an aircraft battery charger

**NOTE:** When storing the Start Pac® for more than 30 days, fully recharge the unit, then remove the battery box from the charging unit and store separately. Do not plug the charging top in when disconnected from the battery box.
