FEDERAL AVIATION ADMINISTRATION - PARTS MANUFACTURER APPROVAL

Dear Mr. Wilkinson:

The Federal Aviation Administration (FAA) concurs with your request to revise Parts Manufacturer Approval (PMA) Listing-Supplement No. 2 as stated in your letter dated June 6, 2017. In accordance with the provisions of Title 14, Code of Federal Regulations (14 CFR), part 21, Certification Procedures for Products, Articles, and Parts, subpart K, the FAA has issued a revision to PMA Listing-Supplement No. 2.

You are reminded that the provisions of 14 CFR, parts 21 and 45, apply to the enclosed revision to PMA Listing-Supplement No. 2. The enclosed supplement should be retained with the original PMA letter, dated March 24, 2014, as evidence of approval to produce the articles concerned.

Please return the original PMA Listing-Supplement No. 2, dated June 18, 2014, to the Seattle Manufacturing Inspection District Office at your earliest convenience.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Harder".

Note: The procedures that have been accepted by the type certificate or TSO authorization holder and its cognizant FAA Aircraft Certification Office, for minor changes to original articles used on typecertificated products, are also acceptable for incorporating the same minor changes on identical PMA replacement articles. The PMA holder must be able to show traceability relating to the TC, STC, or TSO authorization holder on all minor changes incorporated by this procedure. When these procedures are no longer applicable because of completion of the production contract, or termination of the licensing agreement or business relationship, all subsequent minor design changes to the PMA articles must be submitted in a manner as determined by the ACQ. Major design changes (reference 14 CFR §§ 21.319 and 21.619) to drawings and specifications are to be handled in the same manner as that for an original PMA.
