

Press Release – New Product

McFarlane Offers Convenient Torque Link Repair Kits for Piper Aircraft

Baldwin City, Kansas, September 16, 2011 - McFarlane Aviation Products has offered torque link repair kits for Cessna aircraft for many years. They are now pleased to announce the availability of new torque link repair kits for Piper Aircraft.

Repairing worn torque links solves many wheel shimmy problems. To save customers time and money, McFarlane has done the tedious work of determining all wear components required to repair most Piper torque links, and have assembled them into kits. These convenient kits offer up to a 60% savings and include FAA approved parts and standard hardware.

McFarlane Aviation Products has provided general aviation with high quality replacement aircraft parts at affordable prices for over 20 years. For more information, visit our website www.mcfarlaneaviation.com, or call 800-544-8594 or 785-594-2741.
