

SAN-100

Pneumatic Sealant Gun for Semkit & Techcon Cartridges

Product Description:

The B&O model SAN-100 is a pneumatic sealant gun manufactured for the use of Semco and Techcon cartridges. The B&O model SAN-100 is designed with a retractable holder system.

The gun will hold 2, 5, 6, 8 and 12oz cartridges with only one retainer. This translated into significant weight reduction and consequently, substantial user benefit compare to conventional systems. This unique system (patent pending) will result in a significant cost reduction.

The full view of the cartridge will allow the user to see the level of fluid inside the dispenser. This high end pneumatic sealant gun is made of polyamide 6 (PA6) with 30 % fibreglass and from durable aluminium alloy.

Features:

- One retractable retainer
- Will hold 2.5, 6, 8, and 12 oz Semco and Techcon cartridges
- Cost reduction
- Lightweight
- Ergonomic design
- Tough and durable
- Engineered for smooth dispensing
- Can be used with or without the retainer
- Replacement parts available
