THE INSULATOR
AIRCRAFT INSULATOR MATERIAL

The Insulator is one of the finest sound proofing and thermal insulation materials available, and will last the life of the aircraft. The dual sided Insulator panels are ideal for installation on interior skin, floor, engine covers, doors, headliners, and bulkheads. The Insulator uses multi-layered fiber plys bonded to reinforced high performance foil to provide optimum barrier to acoustics, radiant heat, thermal heat, and moisture. Insulator is available in 4" x 6" panels or by the lineal foot (4" wide). Install Insulator with Sticky Stuff spray adhesive (shown below) and Insul-Tape. Not FAA approved.

INSULATOR PANELS
Insulator – one ply 4” x 6” sheet. Single sided only.
3/8” thick..................................................P/N 09-27400 $24.65 ea
Discount: less 15% on orders for 20 sheets (assorted)

INSULATOR BY THE FOOT
Single side foil, single layer #6014; 4 ft. wide.
P/N 09-06014.............................................$3.90 /ft.
Double side foil, single layer #6016; 4 ft. wide....P/N 09-06016.............................................$5.90 /ft.

STICKY STUFF ADHESIVE
Stick Stuff is one of the best performing spray adhesives available. It is ideal for installing the Insulator and has many other uses. One spray can will install two 4” x 6” panels.
P/N 09-27415.............................................$12.95/ea.

INSUL-TAPE
AIRCRAFT INSULATOR MATERIAL
This pressure sensitive aluminized foil tape conforms to irregular surfaces, seals seams and joints and provides a vapor barrier. Also mends damaged Insulator foil. Cuts easily with household scissors. 30” roll........................................................P/N 09-27420 $5.35/ea.

INSULATION TAPE
Insulation Tape. This tape is a commercial version of the government specification MIL-P-15280. It is an adhesive backed tape with a smooth upper surface.

BLANKET IN-A-BOX
Insulating your aircraft made easy! Blanket is ready to install as is or can be modified to fit special areas. Each box contains all the materials to insulate your aircraft including an Orcotek strip blanket, tape, cutting knife, instructions and built-in work surface with measuring grid.

Furnished as follows:
1” blanket-in-a-box contains 1 roll (1”X20”x1’00”) Orcotek strip blanket, 2 rolls of Orcotek OT-16A (2”), utility knife, dispenser
P/N 09-45005............................................$2,693.00/box
2” blanket-in-a-box contains 1 roll (2”X20”x5’0”) Orcotek strip blanket, 1 roll of Orcotek OT-16A (3”), utility knife, dispenser box/work platform
P/N 09-45010............................................$1,575.00/box

CONTEGO FIRE BARRIER LATEX PRIMER
-“THE FIRE STOPS HERE”-
Contego protects most building materials from the ravages of fire. Contego intumescent fire barrier products are all non-toxic, non-dermatic, and safe for pets. When exposed to fire, Contego fire retardant coatings expand to form a tough char barrier fire cannot penetrate. Deprived of fuel, the fire quickly dies. Contego not only helps prevent fires, it minimizes deadly smoke production, one of the leading causes of fatalities in residential and commercial fires. Intumescent fire barriers are nothing new, but Contego Passive Fire Barrier Latex represents a quantum leap forward in terms of quality, versatility, affordability and fire safety-all in one truly impressive fire proofing product. Size: Quart.
P/N 05-02615.............................................$28.65

3M™ CARPET TAPE 9377 2 INCH X 25 YARD
3M 9377 Tape has a differential adhesive system with a high-tack acrylic that bonds to the top-layer substrate and a rubber-based adhesive system that attaches to the flooring material. One side is black and attaches to the flooring material with an acrylic-based adhesive. The white side of the tape is a rubber-based adhesive that provides a bond to the floor surface. Will build over time reaching maximum strength at 72 hours. FAR-25-.853 P/N 09-02133 $40.50

INSULATION REPAIR & FABRICATION TAPE
VHT FlameProof Coatings

VHT FlameProof Coatings are scientifically formulated compound designed to withstand temps. up to 1500°F (816°C) VHT Survives where other flame shields & protectors, maintains the finish, prevents rust & corrosion, and resists oils & solvents. For aircraft applications the typical use is on high temperature structures, exhaust manifolds and turbine casings. Both Flat Aluminum and Flat Black are non-facing colors.
