ASA AIRCRAFT INSPECTION, REPAIR & ALTERATIONS - The "Bible" for AMTs, aircraft owners, and homebuilders, this FAA Advisory Circular outlines the standards for acceptable methods, techniques, and practices for the inspection, repair, and alteration of non-pressurized areas of civil aircraft with a gross weight of 12,500 lbs or less. Includes both Part 1B and Part 2B.

STANDARD AIRCRAFT HANDBOOK - This handy book contains a wealth of information with illustrated chapters on riveting, bolts and fasteners, tools and their proper use, assembly and installation methods, materials and fabrication, blueprint reading, lofting and templates. 292 pg, paperback, 6th edition. Book ..................P/N 13-11400 ..............$24.50

DESIGN & CONSTRUCTION MOLDLESS MOLDLESS COMPOSITE SANDWICH HOME BUILT AIRCRAFT CONSTRUCTION (BY BURT RUTAN) - A step-by-step construction manual for the beginner working on composite aircraft designs. If the steps are followed carefully, a first time builder can work confidently with these materials. Profusely illustrated. P/N 13-11600 ..............$16.86

COMPOSITE AIRCRAFT DESIGN (MARTIN HOLLMAN) - A very popular new book from the designer of several innovative composite aircraft. Describes the history of composite aircraft development and provides technical information & sources for the many composite materials in use today. Filled with photos, sketches and graphs, 88 pages. P/N 13-11700 ......................$63.75

COMPOSITE CONSTRUCTION FOR HOME BUILT AIRCRAFT (JACK LAMBIE) - This comprehensive manual shows you the techniques of working with plastics in home built kit airplanes. Lambie's humor and sound judgment are ideal for any avian dreamer. Over 300 graphs, drawings, diagrams, and photos that show you how. 240 pg. P/N 13-12500 ..............$19.95

A PRACTICAL GUIDE TO AIRPLANE PERFORMANCE AND DESIGN (R.R. CRAWFORD) - This book will prepare you with the mathematical tools you'll need to turn your ideas into reality. Find design trade-offs in minutes with easy-to-use graphical and numerical techniques. P/N 13-16820 ......................$19.95

AIRPLANE DESIGN (DONALD R. CRAWFORD) - Collected reprints of a series of technical articles on airplane design printed first in Kit Planes magazine are bound in one 114 pg vol. Easy-to-use basic computer programs (w/ fully annotated source listings incl.) are applied to solve real problems. Detailed derivations of governing equations provide necessary technical background for the solution method. Book ..................P/N 13-16825 ..............$23.85

PRACTICAL STRESS ANALYSIS FOR DESIGN ENGINEERS - How to build composite aircraft. For use by designers and experimenters - solves a multitude of practical problems with easy-to-use graphical and numerical techniques. 685 pages. P/N 13-09828 ..............$23.95

HOW TO COOL YOUR WANKEL ENGINE - This 100 page book can be used as a guide when designing a liquid cooled Wankel rotary engine installation in an experimental aircraft. Information from the Aircraft Rotary Engine Internet Newsletter and a compilation of the published information from the established experimental pilots in the field over the last seven years. Includes a bibliography. The information applies to any liquid cooled aircraft engine. Printed on heavy weight gloss paper with many color illustrations and pictures. (Sizes 8-1/2 x 11 x 4 1/2). P/N 13-04888 ..........$54.00

EVANS LIGHTPLANE HANDBOOK (W.S. EVANS) - This exceptional book provides a ready source of data commonly used in the field of light aircraft design. The book includes detailed information on aerodynamics, engines, propeller, wood, aluminum, steel, composites, landing loads, flight loads, stress analysis, tubing, weight and balance, weights, data tables, and an AN parts guide.

VP-1 VOLKSPANGE PLANS AND PILOT'S HANDBOOK (W.S. EVANS) - The complete set of plans to build the popular VP-1 as well as a complete pilot's operating handbook. Fully illustrated 2 book set.

THE SPORTPLANE BUILDER (TONY BINGELIS) - An introduction to homebuilts along with information on construction practices, fiberglass techniques and materials, stress analysis, tubing, weight and balance, weights, data tables, and an AN parts guide. 396 pages, completely illustrated. P/N 13-13400 ..............$27.99

SPORTPLANE CONSTRUCTION TECHNIQUES (TONY BINGELIS) - 3rd in a series of outstanding books from the dean of homebuilders. Includes sections on getting ready to build, construction practices, fiberglass composites, control systems, aircraft interiors, canopies and windshields, landing gears, instrumentation, electrical systems and finishing. 368 pages, fully illustrated. P/N 13-13300 ..............$27.99

BINGELIS ON ENGINES (TONY BINGELIS) - A treasury of practical engine information for aircraft builders, owners, restorers and mechanics. Things you need to know about engine selection, engine installation, firewall preparation, engine baffle, cooling, electrical systems, propellers, spinners and much more. Highly recommended by Rutan Aircraft Factory. 303 pages, completely illustrated. P/N 13-13450 ..............$27.99

EVANS LIGHTPLANE HANDBOOK (W.S. EVANS) - This exceptional book provides a ready source of data commonly used in the field of light aircraft design. The book includes detailed information on aerodynamics, engines, propeller, wood, aluminum, steel, composites, landing loads, flight loads, stress analysis, tubing, weight and balance, weights, data tables, and an AN parts guide.

VOLKSPANGE PLANS AND PILOT'S HANDBOOK (W.S. EVANS) - The complete set of plans to build the popular VP-1 as well as a complete pilot's operating handbook. Fully illustrated 2 book set.

BUILDING THE GOLD DUSTER - This book was developed in the mid-1970's by an Acro Duster Too SA750 builder about his experiences in building and flying a classic homebuilt aircraft. This manual was written to assist homebuilders in the methods and problems inherent with the construction of steel tube frame and wood wing aircraft of all designs. It is an excellent book full of good information and photos, and credits for their support and guidance all those years. P/N 01-00470 ..............$12.95
