LANDING GEAR DESIGN FOR LIGHT AIRCRAFT - (L. Pazmany) - Discusses in great detail all aspects of the landing gear including tires, wheels, brakes, loads & deflections, main gears, nose gears & tail gears. Includes 32 tables & 3 large fold-out drawings. Recommended highly by many leading aircraft designers. 245 pages, 463 illustrations.

P/N 13-14000 $133.95

LIGHT AIRPLANE CONSTRUCTION FOR AMATEUR BUILDERS - (Pazmany) – Published in 1970. Covers in detail the fabrication and assembly of sheet metal, fiberglass and Plexiglas components. 92 pages. Many, many photos. This book is a “must” for a builder of any sheet metal aircraft P/N 13-13900 ........... $60.00

LIGHT AIRPLANE DESIGN - (L. Pazmany) - A step-by-step description of PL-1 & PL-2 preliminary design and the reasoning behind each feature of these airplanes. No high math; very easy to read. Used as a text in several universities. 80 pp P/N 13-14100 ........... $65.00

FASTENER BLACK BOOK - • This pocket book is a great resource for anyone using standard fasteners on a routine basis • It’s designed for technicians, apprentices, trainees etc. • Coated with a Glare-Free laminate that resists tearing • Free thread pitch identification guide with each book P/N 13-06587 ........... $26.95

ENGINEERS BLACK BOOK - • This pocket book is a great resource for anyone working in a shop • It’s designed for metal workers and machinists • Coated with a Glare-Free • Free drill sharpening gauge with each book P/N 13-06586 ........... $23.95

AIRCRAFT SELECTION - The articles are reproduced here as they appeared in the magazine with the exception of minor corrections and reformatting. The purpose of the book is to provide the reader with a basic understanding of airfoil geometry and how that geometry affects the aerodynamics of an airfoil and the characteristics of an airplane using that airfoil. P/N 13-18700 ........... $19.95

GA AIRFOILS - (Harry Riblett) – This book is a critical study of the NACA airfoil design work addressing errors and omissions of the NACA work and correcting NACA airfoils where needed. This is a comprehensive catalog of airfoils designed for general aviation use. Also included are sections on general wing design, including platform, wing tips, root stakess, aircraft performance and stability, and more. 136 pages. P/N 13-18725 ........... $18.75

ALTERNATIVE ENGINES - This is a compilation of the “Contact” magazine articles written by Mark Mylai on conversion of auto engines. Well written with many helpful ideas. Filled with specifications, pictures and diagrams. An essential book to anyone converting an auto engine P/N 13-00398 ........... $10.55

DESIGNING WITH CORE - (Hal Loken and Martin Hoffman) – Explains how to design core structures. Finite element analysis and hand calculations are included. Discusses materials such as honeycomb and foam cores and gives detailed instruction on how core structures are fabricated. P/N 13-13020 ........... $45.70

LOW POWER LAMINAR AIRCRAFT DESIGN - (Alex Strojnik) – Aerodynamics of light aircraft of 40 HP or less. P/N 13-14200 ........... $37.95

LOW POWER AIRCRAFT STRUCTURES - (Alex Strojnik) – Stress analysis of aircraft structures in the air and landing, and info on load conversions. P/N 13-14300 ........... $37.95

LOW POWER LAMINAR AIRCRAFT TECHNOLOGIES - (Alex Strojnik) - Instructions on how to build low power aircraft. P/N 13-14400 ........... $37.95

SPECIAL! ALL 3 ALEX STROJNIK BOOKS FOR $108.00 P/N 13-14500

HOW TO PAINT YOUR OWN AIRPLANE - (Ron Alexander) – This book discusses all aspects of spray painting including choosing the right equipment, how to set up a paint booth, preparation of surfaces, painting techniques, safety issues, etc. This is an EAA “How To” book written by Ron Alexander. Over 80 pages. P/N 13-03274 ................ $18.50

COMPOSITE BASICS (ANDY MARSHALL) – An excellent review of composite structure design and technology from one of the foremost authorities on advanced composites. Illustrated. 7th edition. P/N 13-18000 ........... $29.85

AVIATION MAINTENANCE TECHNICAL WORKBOOK - This Workbook was developed by Tom Wild and Mike Leasure from Purdue University as a further study tool and an A&P instructor’s classroom aid for a General curriculum, especially when combined with the FAA 8083-30 revision ATBS textbook. Each chapter in the workbook matches those in the textbook with each including 3 sections: Chapter Review Questions, Knowledge Application (practical) Questions, Final Chapter Exam Book P/N 13-09048 ........... $13.95 E-Book ........... P/N 13-09047 ........... $13.95

HELICOPTER DESIGN AND DATA MANUAL E-BOOK - Helicopter Design and Data Manual discusses the basics of helicopter design including aerodynamic theory and fundamentals for rotorcraft, airframe structure, mechanics and design of rotor heads, tail rotor, transmission, and blade construction, and selection of proper materials. E-Book ........... P/N 13-09896 ........... $11.50

LIGHT SPORT AIRCRAFT INSPECTION PROCEDURES - Light Sport Aircraft Inspection Procedures is the first book we’ve seen on the maintenance and inspection of Light Sport and Ultralight type aircraft. Airframes, engines, and control systems are covered in depth along with many illustrations and photos showing typical damage and wear points which are common on these non-certificated aircraft. Owners and operators of this class of aircraft should consider this book required reading before your next flight or pre-flight inspection. A&P mechanics will find this material extremely useful as Light Sport Aircraft become more common and this type of aircraft begin to make their way into your shops 125 pages. Book .......... P/N 13-09912 ........... $23.50 E-Book .......... P/N 13-09981 ........... $24.95

GAS TURBINE POWERPLANT TEXTBOOK - With over 500 illustrations, charts, and tables, this textbook is a valuable cross-reference between today’s aircraft and engines. It includes the most up-to-date information on aircraft gas turbine powerplants and updated coverage of jet engine technology. P/N 13-19842 ........... $49.95

GAS TURBINE POWERPLANT WORKBOOK - Aircraft Gas Turbine Powerplants Workbook is a companion to the Gas Turbine Powerplants Textbook containing questions, answers and explained solutions to increase your comprehension of the material covered in the textbook. P/N 13-19843 ........... $21.75
