HOWARD'S GOLDEN AGE ART MALL - After building four of the most successful and famous air racers in the world, in the 1930s. Pete, Ike, and Mr. Mulligan, Benny Howard's fame increased with each passing year. With such notoriety, Benny was able to realize his dream -- that of manufacturing and selling commercial aircraft to the flying public throughout the world. Howard was also a highly acclaimed test pilot, having test flown many aircraft for several aircraft manufacturers during his career. This Benny Howard story is a story of struggle, fame, fortune, love, depression, failure and success. P/N 13-006178 ...............$24.95

LUSCOMBE'S GOLDEN AGE - BY JOHN SWICK. Luscombe's Golden Age is the fifth book in The Golden Age of Aviation Series. John Swick, the author, has completely revised and updated the original The Luscombe Story published in 1987, including approximately 100 new pages of text, dozens of never-before published photographs and Luscombe magazine ads from that era. Included in this book are detailed accounts and descriptive 3-view scale drawings of each Luscombe model manufactured, including the early models: Phantom, Ghost, Spectre, Harpie, Small Transport and Sprite. P/N 13-006180 ...............$29.95

THE BOMBER AIRCREW EXPERIENCE - Flying bombers during World War II was a harrowing ordeal. Unlike the fighter jocks, who hit their skull and wits against each other in agile aerial combat, the bomber boys had to endure the fear and savagery of the air war with grim acceptance— their only option to sit and take it. Manning lumbering machines that could not maneuver or defend themselves effectively, the aircrews had to rely on tight aircraft formations and their own bravery to survive the onslaught of enemy fighters and anti-aircraft artillery. FAIRCHILD'S GOLDEN AGE - BY ALAN ABEL A young Sherman Fairchild quit college in 1917 to start a company to build aerial cameras. After 3 years, Fairchild built the first successful large, high-speed between-the-shutter camera that was a major breakthrough in aerial photographic technology. Fairchild found airplanes of the day not suitable for the photographic mission. Sherman decided to build one himself. During the design of the plane, Fairchild decided to build a multipurpose plane suitable for other piloting needs and to market these airplanes to the public. P/N 13-006177 ...............$24.95

THE PROPELLER UNDER THE BED - A PERSONAL HISTORY OF HOMEBUilt AIRCRAFT - On July 25, 2010, Arnold Ebneter flew across the country in a plane he designed and built himself, setting an aviation world record for aircraft of its class. He was eighty-two at the time and the flight represented the culmination of a dream he'd cultivated since his childhood in the 1930s. From early airplane designs serialized in magazines to the annual Oshkosh Fly-in where you can see experimental aircraft on display, Bjorkman offers a personal take on the history of building something in your garage that you can actually (and legally) fly as well as how the homebuilt aircraft movement has contributed to aviation and innovation in America.
