

# GAP SEAL – BAFFLE SEAL – SEALANTS

## PLIOBOND

Pliobond #20 is a viscous, quick setting highly versatile adhesive. Bonds metal; wood, plastics, fabrics; ceramics, glass, vulcanized rubber, paper, leather and concrete. Thin with MEK.

1/2 Pt. Brush Top Can ... P/N 09-28000 .....\$9.85  
Pt. Can ..... P/N 09-28100 .....\$17.50  
Qt. Can ..... P/N 09-28200 .....\$28.50

## PLIOBOND 25 LV

Pliobond #25 LV is a viscous, quick setting highly versatile adhesive. Bonds metal; wood, plastics, fabrics; ceramics, glass, vulcanized rubber, paper, leather and concrete. Thin with MEK.

1/2 Pint ..... P/N 09-03812 .....\$11.99  
Pint ..... P/N 09-03813 .....\$21.65  
Quart ..... P/N 09-03814 .....\$36.65

## PLIOBOND 30

PLIOBOND 30 is a general purpose thermosetting adhesive, it provides tough, chip resistant bonds that remain flexible over a wide temperature range; excellent resistance to mechanical shock, oxidation, fungi, mold and bacteria. Typically used as a sealer, primer, water repellent, or coater. 1/2 Pint Top Can. P/N 09-04669 .....\$11.55

## PLIOBOND 35

For seaming, splicing and bonding of gaskets, rubber matting, belts and hose to rubber, wood, metal, some plastics, glass and fabrics and to themselves. Provides permanent, flexible bonding. Can be brushed, spread or roller coated. Will not get hard or brittle with age and resists most acids, oil, gasoline, grease, water and salt. P/N 09-04670 .....\$12.50

## 3M™ WINDOW SEALANTS

3M STRIP CAULK - This black, nonhardening compound in 12" strips is the most satisfactory product for sealing windshields and windows. 61 strips per box, more than enough for an average, leakproof windshield installation.

P/N 08578 .....\$22.75/Box

## DOW CORNING® 730 FS SOLVENT RESISTANT SEALANT

Dow Corning®730 FS Solvent Resistant Sealant is a ready-to-use, solventless, non-slumping fluorosilicone rubber paste that reacts with moisture in the air to form a tough,

rubbery solid. It is a fluid-resistant material that is ideally suited for use in many applications where resistance to fumes, splash, and sometimes even total immersion in fuels, oils and solvents is needed. Dow Corning 730 FS Solvent Resistant Sealant features good resistance to weathering, vibration, moisture, ozone, and temperature extremes. It retains its flexibility over a wide temperature.

3 oz. tube ..... P/N 09-00383 .....\$96.95

## DOW SILASTIC RTV

General-purpose single-component silicone rubber. Adheres to metals, glass, paint, ceramics, most plastics, and wood.

Cures to a firm silicone rubber in 24 hours at room temperature. Seals windshield glass, windows, repair worn rubber parts.

#732 RTV (Clear), 3 Oz. Tube ..... P/N 09-04406 .....\$4.95  
#732 RTV (White), 3 Oz. Tube ..... P/N 09-04407 .....\$4.95  
#732 RTV (Clear), 4.7 Oz. Tube ..... P/N 09-27800 .....\$8.50  
#732 RTV (White), 4.7 Oz. Tube ..... P/N 09-27810 .....\$8.75  
#732 RTV (White), 10.10 Oz. Tube ..... P/N 09-27810 .....\$8.75  
#732 RTV (Black), 4.7 Oz. Tube ..... P/N 09-27815 .....\$8.50  
#732 RTV (Black), 3 Oz. Tube ..... P/N 09-27815 .....\$8.50  
#736 Red Silicone, 3 Oz. Tube ..... P/N 09-27900 .....\$13.75  
#736 Neutral Cure Sealant (Clear) ..... P/N 09-05339 .....\$9.85

## DOW CORNING RTV-3145 ADHESIVE / SEALANT

Sealing openings in modules and housings; adding mechanical stability to individual components; assembly of components on PWBs; sealing in and around wires and electrical leads; yoke assembly.

Clear ..... P/N 09-02041 .....\$39.50  
Gray ..... P/N 09-02042 .....\$39.50

## CRC RTV SILICONE SEALANT

For general-purpose sealing, bonding, protecting and waterproofing applications. Clear formulation forms a barely visible, water-tight seal. Sealing, bonding, protection & waterproofing in HVAC, electrical, construction, metal working, for filling gaps between mating parts, gearboxes, pumps, motors & for general gasket sealing.

Clear 8oz. .... P/N 09-04719 .....\$26.50  
Clear 12oz. .... P/N 09-04677 .....\$9.80  
Blue 8oz. .... P/N 09-04720 .....\$23.75  
Red 8oz. .... P/N 09-04721 .....\$23.85

## HOMEBUILDERS GAP SEAL KIT FOR EXPERIMENTAL AIRCRAFT

Designed for experimental aircraft that have been identified as needing gap seals to improve control response and effectiveness. Features transparent, UV stable film with a long aging, acrylic adhesive. Remains flexible down to -40 deg. F. Easy to install with the use of simple hands tools. Kit includes 3M 8674 Film (PN 09-01643), 86A Adhesion Promoter to ensure maximum adhesion, Scotchbrite pad (PN 09-01753) and 3M Application Solution (PN 06-00604)

P/N 05-03480 .....\$124.95

## AVTEK GAP SEAL

The "Spring-Steel" reinforcement channel has "Gripper" teeth to hold firmly in place. And when your door is closed the seal is pinched between the airframe. You can not pull the seal out when the door is closed...however applying adhesive into the channel is recommended. Length: 9ft. P/N 05-02203 .....\$159.75

## GAP SEAL

Gap Seal for rudder and elevator of your aerobatic aircraft! It can also be used on other aerobatic aircraft if the horizontal stabilizer, elevator, vertical fin and rudder spar is made from a 7/8 inch diameter tube with at least 1/8 inch gap and is equipped with strap hinges. Comes in 3 foot strips. It is cut and glued to the trailing edge of the horizontal stabilizer and vertical fin. Any good quality contact cement can be used to bond the Gap Seal.

NOTE: The Gap Seal is not designed for tail surfaces that are pin hinged however some homebuilt aircraft (Pitts S-1C) with pin hinges have been used successfully. Typically 3 strips for Pitts S-1, 4 strips for Pitts S-2 and Eagle, 5 strips for Pitts Model 12 P/N 05-04616 .....\$38.75

## AVTEK SQUEEZE-OUT DOOR SEAL KITS

Door Seal keeps water, cold, wind noise out of your aircraft. The seal is designed for use on multiple aircraft make/model applications. The -02 is shipped with dual Air-Chambers. The installer can split the chambers using one near the hinges, where gaps are small, use two of three chambers in the rear where the gaps are larger. The -02 is very versatile, and works great on every aircraft, whereas the -01 may not. Get the -01/-02 combination kit if you are unsure!

\*While the -02 kit contains enough seal material to seal all General Aviation Doors, the purchase of the -02/-02 Kit will give you extra -02 in case something unexpected happens during installation. Extra can also be used for the baggage door.

Description	Use	Features	Part No.	Price
AvTek Air Chamber Door Seal -02	Recommended for All Aircraft. Fwd-Aft Cabin Doors & Bag Door.	Flex, E/Z Conform Will Not Push Door-Out	05-02198	\$118.85
AvTek Thin Seal (Window) -03	Recommended for Cessna & Beech. Use for Windows, Paper-Thin Door-Gaps	Seals When No Other Seal Will	05-02199	\$49.75
AvTek Thin Seal (Door) -03	Recommended for All Aircraft. Use for Very Small Gaps in Doors	Seals When No Other Seal Will	05-02201	\$79.95
AvTek Thicker Seal (Door)	Recommended for All Aircraft. Seal installed on the door.	Resist Mildew, Mold, & Tearing	05-02202	\$69.95
Door & Airframe Air-Seal Kit	The -02/-02 Air-Chambers on both the Door & on the Door-Way work together. Much like Car-Doors do. Compressing and expanding as your door does, for a "Water-Tight" fit.	N/A	05-04105	\$129.95
