Good-grade neoprene. Soft, flexible, oil-resisting. Full lengths are 15” strips from manufacturer.

Priced and sold above by the foot.

**Style B:** 1/2” high - right, 3/8” high-left, 1/6” Groove, P/N 05-01400, $1.20/ft

**Style C:** 3/8” high, 1/4” Groove, 1/4” across bottom, P/N 05-00997, $1.20/ft

**Style D:** 1/2” high - right, 3/16” high-left, 1/32” Groove, P/N 05-00998, $0.80/ft

**Style E:** 1-1/8” high, 1/4” lip right side, 1/6” Groove, P/N 05-00599, $1.34/ft

**T-997 NEOPRENE RUBBER TRIM AND FERRIN SEAL**

The T-997 is a Neoprene Rubber Seal that is used in various different applications on the aircraft. It is manufactured from a 60 Durometer Neoprene Rubber material. It is sold per foot with a 10 ft min. 1/16” opening. 1/8” Tall. P/N 05-11192, $0.68/ft

**K-15 NEOPRENE RUBBER TRIM AND FERRIN SEAL**

The K-15 is a Neoprene Rubber Seal that is used in various different applications on the aircraft. It is manufactured from a 60 Durometer Neoprene Rubber material. It is sold per foot. 1/16” opening. 1/8” Tall. 60 Durometer Neoprene Rubber. P/N 05-11192, $0.68/ft

**BA-200 VINYL U-CHANNEL 3/8”**

The ba-200 is vinyl U-Channel that is used as a trim seal in various applications throughout the aircraft. It is manufactured from a vinyl material that meets the requirements of the FAR 25.633 B burn test. It is available in Black or White color and comes in a 25FT package.

**OPEN CENTER CHANNEL**

Neoprene sponge rubber 1/4” round door seal. Hollow core makes a better seal. Manufactured in 25 ft. lengths. Sold per foot. #7……..P/N 05-01700, $2.48/ft

**SILICONE P-SEAL 50 DURO**

Silicone P-seal 50 duro for battery box application/lighter wall thickness. Made in 1/2” x 5/8” bulb. Sold by foot.

Use GBL4-4AB large flange (black) pop rivets to install (PN 05-00483).

**ANTI-CHAFE MOLDING**

Anti-Chafe Molding for fuel tank straps. Neoprene material accommodates metal straps 1” wide. #9……..P/N 05-01800, $1.67/ft

**“V” STRIP**

“V” Strip Canopy Channel 20 Ft. required for Long-EZ.

**QUARTER ROUND DOOR SEAL**

Hollow Quarter round door seal. Medium density sponge material. Use 1100-2 contact cement. BA-10012……..P/N 05-11173, $4.35/ft

**CESSNA/PIPER QUARTER ROUND DOOR SEAL**

Constructed of a medium density solid sponge material that offers excellent compression ability and resiliency when installed correctly. Use 1100-2 contact cement. RB-5022……..P/N 05-11193, $5.55/ft

**QUARTER ROUND SOLID DOOR SEAL**

- Closed cell black neoprene with smooth outer surface. 1/2” Legs, 3/4” Curve, 1/2” Radius, 25 ft. Roll
- Solid………………P/N 05-00000, $28.75/ft
- Hallow………………P/N 05-12641, $28.75/ft

**PIPER DOOR SEAL**

- Small cell sponge rubber. 25 foot rolls. JM189139.
- P/N 05-00010, $62.50/ft

**BAGGAGE DOOR SEAL**

- Flexible small cell sponge rubber seal used on many aircraft baggage doors. Packaged in 25 foot rolls. 25 ft. Roll
- P/N 05-00020, $59.85/ft

**PIPER WING ROOT SEAL**

- Black packaged in 12-foot lengths, adequate for one wing root. 12 ft. Roll
- P/N 05-00030, $47.50/ft

**PIPER WING ROOT SEAL**

- 12 foot. Enough seal to replace the seal on one wing of your Piper aircraft, it is made of a Black neoprene rubber material.
- P/N 05-13058, $58.75/ft

**BEECH WING ROOT SEAL**

- Black, packaged in 12-foot lengths, adequate for one wing root. 12 ft. Roll
- P/N 05-00040, $59.75/ft

**J-3, PA-18 DOOR GAP SEAL**

- 24” length Standard color, black.
- P/N 05-00953, $15.75/ft

**Note:** The above moldings are not FAA approved.

---

**RUBBER CHANNEL - COWL SEAL**

**HIGH QUALITY RUBBER CHANNEL**

Flexible small cell sponge rubber material manufactured to meet the MIL-R-46089 C. The material has a Smooth finish to it. 1/2” x 1”. P/N 05-11194, $6.50/ft

**U CHANNEL BLACK 65 DURO EPDM U-CHANNEL**

Use CRL Glass and Acrylic Setting Rubber Channels if you have acrylic or glass panels you need to protect. Our Glass Setting Rubber Channels will provide you with the product you need. Available in multiple sizes for most applications.

**OPEN CENTER CHANNEL**

Made in 12” Lengths - #4……..P/N 05-01500, $2.27/ft

**SILICONE P-SEAL 50 DURO**

Silicone P-seal 50 duro for battery box application/lighter wall thickness. Made in 1/2” x 5/8” bulb. Sold by foot.

Use GBL4-4AB large flange (black) pop rivets to install (PN 05-00483).
