### CHAFE SEAL - DOOR SEALS

#### BEECHCRAFT COWL DOOR CHAFE SEAL
A Complete set of black silicone chafe seal for the upper cowl doors for Beech models 33, 35, 36, 3/8" wide x .020 thick. Kit includes silicone cement. P/N 05-00665 ....................... $57.75

#### BEECHCRAFT MAIN LANDING GEAR DOOR CHAFE SEAL
A Complete set of black silicone chafe seals cut to the original design. These seals are cemented to the underside of the wing to reduce the chafing of the main landing gear doors when closed. Adhesive is included. Full kit contents on web. P/N 05-00667 ....................... $79.75

#### BEECHCRAFT TAIL ROOT SEAL
A set of two tail root seals for models 33–36. P/N 05-00669 ....................... $145.75

#### BEECHCRAFT UPPER WING SEAL
Includes 2 (12') Upper Wing, 2 lower wing seals and 4 oz. of cement. (2). Applicable models: 33, 35, 36, 35, 58. P/N 05-00668 ....................... $307.00

#### SILICONE ANTI-CHAFE SEALS
Anti-Chafe Seal AMS3303-032. Silicone, Black, 1-1/2" wide x 15' long. Silicone Anti-Chafe Material: Mooney and Early Cessna Models. Piper: Malibu and Mirage. Replaces the use of Teflon Tape. Reduces vibration on the cowlings, reduces wear on the contact surfaces. Seals the aircraft cowl from rain and water. Can also be used for fuel straps. Silicone cement must be used to install silicone based seals. Silicone Cement required for Installation. P/N 05-10740 ....................... $79.95

#### BEECHCRAFT UPPER WING SEAL

#### BEECHCRAFT TAIL ROOT SEAL SILICONE SEAL
AMS3303 silicone seal temperature range -65 to +250°F. Silicone seal for aircraft. Custom extruded from a special hybrid rubber compound, the new seal is superior to any seal on the market. P/N 05-03628 ....................... $129.95

#### SILICONE AIRBOX & HEATER SEAL
This fiberglass reinforced silicone seal (1/16" thick) makes an excellent replacement for various airbox and heater box seals used in a variety of aircraft. Furnished as a 6" x 6" piece; Black. P/N 05-00662 ....................... $18.50

#### BLACK SILICONE P SEAL WITH 5/8" BULB
This seal makes an excellent replacement for felt type seals or other neoprene P-seals found in various aircraft. Overall size is 1-3/8" with a 5/8" bulb. Similar to Cessna #5279-1. Note: Use GBL4-4AB large flange (black) pop rivets to install. P/N 00-00483) P/N 05-00663 ....................... $11.50f

#### BLACK SILICONE P SEAL WITH 7/8" BULB
This seal makes an excellent replacement for felt type seals or other neoprene P-seals found in various aircraft. Overall size is 1-3/8" with a 7/8" bulb. Sold by the foot. Note: Use GBL4-4AB large flange (black) pop rivets to install (P/N 00-00483). P/N 05-02144 ....................... $16.50f

#### BEACHERCRAFT STORM WINDOW SEAL
1923/24/33/35/36/50/55/58/77/78/79 Series Window Seal, Storm Window, (Frameless) P/N 05-03613 ....................... $19.95

#### SOCATA TB REPLACEMENT WING ROOT
Easy to fit wing root package contains two strips at 1.75m each plus instructions, meaning you can complete both wings at the same time. P/N 05-15349 ....................... $69.95

#### PIPER/MOONEY DOOR SEALS
Developed from a special rubber compound that meets military specifications and FAA requirements for aircraft seals. Has a memory, compresses and conforms to the sealing surface providing a perfect seal. Comes with pressure sensitive adhesive that makes it easy to apply and bonds well with any metal surface painted or bare. Installs in the channel on the fuselage opening. Provides for an air- and water-tight seal. Detailed instructions, an engineering drawing for installation of the new seal, including instructions for adjustment of the door as well as removal of the old seal from the door(s). Please call or visit our website for additional photos and models.
