CABLE - FORKS - PUSHROD FITTINGS

CONTROL CABLE

- 7 X 7 FLEXIBLE CONTROL CABLE - Has seven strands of seven wires each. Used for control purposes where extreme flexibility is not required but where abrasion is a factor.
- 7 X 19 FLEXIBLE CONTROL CABLE - Has seven strands of 19 wires each. Its greater metallic area makes it stronger than 7 X 7 cable. Because of its fine wires the best service is obtained where abrasion is not too severe. These same wires, however, make it flexible to meet severe bending.

COATED CONTROL CABLES

These FAA-PMA approved cable assemblies are available in stainless or galvanized cable and are constructed of highest quality materials. All components are fully traceable and each assembly is load tested and length stabilized.

CESSNA FLIGHT CONTROL CABLES

These FAA-PMA approved control cables are available in stainless or galvanized cable and are constructed of highest quality materials. All components are fully traceable and each assembly is load tested and length stabilized.

BEech Flight Control Cables

McFarlane Beechcraft flight control cables and chains are coated with a corrosion inhibiting compound that meets Military Specification MIL-PRF-16173. This is the same compound used on all factory original Beechcraft control cables.FAA/PMA

PUSHROD THREADED END FITTING

Fits 5/8" diameter pushrods. 1/4 - 28 thread hole. Secure to aluminum pushrod with two cross rivets or bolted fasteners. Made from 6061-T6 5/8" diameter x 1-5/8" long rod. Two sizes available.

PUSHROD BALL ROLLER GUIDES

Provides almost frictionless push - pull and rotary movement of aileron and elevator push rods. Design is similar to that used in German sailplanes. Unit contains four nylon roller balls and provides 3.5" pushrod travel. Aluminum case size, 1.25" x 3.0" long. Fits 5/8" diameter pushrods.

PUSHROD FORK END FITTING

Fits 5/8" diameter pushrods. 3-1/2" pivot hole with .090" wide slot for bellcrank. Secure to aluminum pushrod with two cross rivets or bolted fasteners. Made from 6061-T6 5/8" diameter x 2-3/8" long rod. Two sizes available. Fits: 5/8" x .049" tube ........... P/N 05-01140 ....... $9.90

CABLE FAIRLEADS

Nylon construction for external use. Two halves with retaining clip. 3/4" O.D. x 3/4" L

WING STRUT ADJUSTMENT

Conforms to AD. 81-25-04. The heavy-duty, high tensile strength strut fork has rolled threads, an improved alloy with heat treatment for added strength, and a permanent indentification mark to provide assurance of conformity for ease in field installation. Forks require a five year inspection per A.D. 93-10-06.

RUDDER CABLE FAIRING SETS FOR RV'S

Pre-formed .025" thick aluminum fairings for rudder cable exit on RV fuselages. (None are supplied with the RV kits). Set contains (2) identical fairings - 1 for use on cables and 1 spare (could be used on elevator trim). Each will require some trimming to fit before riveting.
