WING & DORSAL TIPS

Wing tips are a common victim of hanger and ramp rash. Maybe you thought the plane was going to clear those doors as you wheeled it back into the hanger...the first indication that you were wrong was that grating sound as the wing tip met metal. Here’s the solution: replacement fiberglass replacements will be more durable with an improved finish over the original plastics.

GEAR LEG AND BRAKE FAIRINGS

These are excellent items for replacing worn plastic originals. Your fiberglass replacements will be more durable with an improved finish over the original plastics.

WHEELS & TIRE PRESSURE

Pressure is critical when it comes to aviation. It can affect the performance of your plane and even its safety. Make sure to check the tire pressure and inspect the condition of your wheels regularly. With the right maintenance, you can ensure a smooth flight. See our website for the complete listing.
