### WHEELS & BRAKES

**MATCO HUB CAP KIT FOR MH SERIES WHEELS**

Responding to customer inquiries for a kit to allow installation of the current WHLWC wheel cover on MH series wheels, MATCO has introduced the MHWC hub cap kit. The kit includes wheel covers and mounting hardware for 2 wheels. The WHLWC wheel covers are made from durable ABS polymer. The wheel covers can be painted to match customer requirements. Installation can be accomplished without removing the wheel. Installation on MH wheels using the CNC spun wheel halves (introduced in early 2001) can be accomplished in about 10 minutes. On earlier MH series wheels using stamped wheel halves, some trimming of the wheel cover may be required and installation may require about 30 minutes. Furnished unpainted. 2 wheel kit.

For 5” Wheels P/N 06-02913 $19.90
For 6” Wheels P/N 06-00466 $34.70

**AZUSA LITE NYLON WHEELS 4", 5" AND 6" INCH MODELS**

Azusalite wheels are made from engineering grade Nylon which combines high tensile and compressive strengths and good impact resistance. Excellent for many homebuilt and ultralight aircraft applications since they weighs 60-70% less than aluminum wheels. Azusalite wheels are offered in 4", 5" and 6" models. Replacement parts and unrelated accessories available on request.

**AZUSA 5" WHEEL**

- Used as the main wheels on the Mohawk ultraight, this 5" wheel features 5/8" I.D. sealed ball bearings. Uses 4.10 / 3.50 - 5 or 5.00 - 5 tire and tube. Max Load: 475 lbs, or the load rating of the tire. Whichever is lower...
- P/N 06-02500 $27.50

**AZUSA 4" WHEEL**

- A 4 inch Azusalite wheel featuring 5/8" sealed ball bearings. Uses a 4.10 / 3.50 - 4 tire and tube. Max Load: 440 lbs, or the load rating of the tire. Whichever is lower...
- P/N 06-02600 $21.50

**AZUSA 6" WHEEL**

- A 6" Azusalite wheel; comes complete w/ 5/8" sealed ball bearings. Uses 4.10 / 3.50 - 6 or a 6.00 - 6 tire & tube. Max Load: 565 lbs, or the load rating of the tire. Whichever is lower...
